

Wisconsin Department of Natural Resources  
SWIMS Project Summary

General Project Information

**Project ID:** SPL-122-06

**Name:** ELKHART LAKE IMPROVEMENT ASSOCIATION: Elkhart Lake Groundwater Modeling

**Type:** Lakes Grant

**Subtype:** Small Scale Lake Planning

**Status:** COMPLETE

**Start Date:** 4/1/2006

**End Date:** 12/31/2007

**Purpose:** The Elkhart Lake Improvement Association will continue the monitoring of groundwater started in 2004 and 2005. This monitoring will add 6 new well locations to provide a better distribution of sampling points. A total of twenty wells will be sampled on two dates for total phosphorus and fecal coliform. A consultant will utilize the data collected for a comprehensive report. Two paper copies and one electronic copy of the report will be provided to the department. The report will contain the following elements:

1. Graphics showing the sampling locations and observed concentrations.

2. Identification of trends in groundwater flow and distribution of any potential ground water

3. A comparison of this data to the data collected in 2004-2005 to determine if the 2004-2005

contamination.  
sampling results

represent long-term conditions.

**Objective:**

**Comments:** Grantee is ELKHART LAKE IMPROVEMENT ASSOCIATION

**Outcome:**

**Study Design:**

**QA Measures:**
