

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SPL-354-15

Name: DEEP LAKE ASSOCIATION: Deep Lake Tributary Study

Type: Lakes Grant

Subtype: Small Scale Lake Planning

Status: COMPLETE

Start Date: 2/15/2015

End Date: 12/31/2015

Purpose: Deep Lake Association is conducting a tributary loading study in partnership with DNR. Volunteers will monitor six sites and complete expanded lake water quality monitoring to better understand tributary loading and lake condition/response. The final deliverable will be a report describing phosphorous loads and sources with options to reduce loading. All data collected, including temp/DO profiles and flow measurements, must be entered into SWIMS.

The specific objectives, metrics, and deliverables for the listed activities are included in the application and supporting materials, and this scope is not intended to replace or supersede those documents

Objective:

Comments: Grantee is DEEP LAKE ASSOCIATION

Outcome:

Study Design:
