

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPT-487-15

Name: COURTE OREILLES LAKE ASSOC.: RES-Lac Courte Oreilles Shoreland Restoration

Type: Lakes Grant

Subtype: Lake Protection Grant

Status: COMPLETE

Start Date: 4/15/2015

End Date: 12/31/2018

Purpose: Courte Oreilles Lake Association is sponsoring a project to design and install shoreline buffer restorations on Lac Courte Oreilles and Little Lac Courte Oreilles Lakes.

Project tasks include: 1) Shoreline buffer design/restoration on approximately 25 shoreline sites; 2) Modeling to estimate TSS and TP reductions from buffer restorations; 3) Develop and distribute shoreline buffer educational materials.

Shoreline restorations shall follow standards set forth in NR 191.24(3) unless mutually agreed to in writing with the regional lake biologist before implementation occurs. Shoreline restorations using grant funding for plants or labor require a Department approved restrictive covenant that permanently establishes the vegetative buffer on the parcel. Maintenance, operation, and protection will be specified in a ten-year contract for each BMP site. The Department may perform site inspection and/or monitoring.

Project deliverables include: a report and map summarizing project activities including modeling results and educational materials developed, square feet of shoreline buffer restored, individual property shoreline restoration plans, pre-post photos of funded restorations, signed 10 year maintenance agreements, and copies of all Shoreland Vegetative Protection Agreements.

Special conditions: Applicable water regulation and/or county zoning permits must be issued before construction activities commence.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

Objective:

Comments: Grantee is COURTE OREILLES LAKE ASSOC.

Outcome:

Study Design:

Assessment and Prioritization of the Riparian Buffer Zone of Lac Courte Oreilles Using Geographic Information Systems [Presentation]	Presentation on the methods of the shoreland condition assessment for Lac Courte Oreilles as well as the results based off of parcels of land. Includes results of a citizen survey about erosion of shoreland.	Kara Fitzpatrick

Broken Arrow Condominium Association (BACA) Shoreline - After [Photo]	In 2017, owners of the BACA cabins finished a major shoreline restoration project that began back in November 2016. The shoreline was seriously damaged, after years and years of neglect, with the ultimate blow dealt in the July 2016 storm when many trees went down in straight line winds.		1/1/2017

Lac Courte Oreilles Shoreland Buffer Projects [Website]	Website for the Lac Courte Oreilles Shoreland Restoration project as part of LPT-487-15.	Courte Oreilles Lake Association		
Short Ears, Long Tales - Courte Oreilles Lakes Association Newsletter Issue #21	Broken Arrow Shoreline and Cabins Get Facelift - If a shoreline could say thank you, there is 500 feet on Lac Courte Oreilles that would breathe a sigh of relief and say just that. Beginning in mid-February rock riprap was placed along 200 feet of the BACA shoreline. Then, in early May Envirolok bags were filled onsite with the soil/compost for the plants and placed in conjunction with the rock riprap. Biologs are also being used to restore and stabilize another 120 feet of the shoreline. Pulford said without the native shrubs and other traditional vegetation to hold the upland soil in place (known as the "buffer") the shoreline is lost—in this case approximately 12-15 feet of shoreline has eroded away since the mid- 80s and has been washed into the lake.	Kathy Hanson	7/1/2017	

Wisconsin Department of Natural Resources SWIMS Project Summary

<p>Short Ears, Long Tales - Courte Oreilles Lakes Association Newsletter Issue #3</p>	<p>COLA takes another giant step in stewardship; shoreland restoration project begins now - Cathy Bross will be the first Lac Courte Oreilles lake homeowner to play a part in the Lac Courte Oreilles shoreland restoration project, scheduled to begin shortly on her 280-foot shoreline on Winter Bay.</p>	<p>Kathy Hanson</p>	<p>6/24/2015</p>	
<p>The Lac Courte Oreilles Lakes Shoreline Assessment and Restoration Project</p>	<p>This article explains COLAs shoreline buffer project for the LCO lakes and provides meaning to the assessment map in the context of overall lake health. This article also provides direction on steps property owners can take to enhance or improve their shoreline buffer on their own, or how to seek grant funded buffer projects through COLA.</p>
