

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPT-470-15

Name: WAUSHARA COUNTY: LCO-Waushara County Lake Planning - Phs 3 - Grant 3

Type: Lakes Grant

Subtype: Lake Protection Grant

Status: COMPLETE

Start Date: 4/15/2015

End Date: 6/30/2017

Purpose: Waushara County is continuing their county-wide study of 33 lakes. All the field work has been completed and phase 3 involves lake management plan development and distribution of information/data gathered. The following work activities will be completed in Grant 3:

1. Lake management plan development
2. Public Meetings for each lake
 - a. Introduction meeting
 - b. Information and planning meetings (3 meetings)
 - c. Public presentation meeting
5. Review of existing regulatory framework
 - a. In particular, zoning regulations and comprehensive plans will be examined
6. Targeted messaging for riparian landowners in Waushara County
7. Waushara County Lake Fair participation
 - a. Highlight things being done by lake groups to keep the county lakes in good shape.
 - B. Update current efforts and the status of Phase I & II of the lakes classification project

The following deliverables (products) will result from Grant 1:

1. Citizen/User Surveys
2. Lake Management Plans (8 total)
 - a. DNR Lake Coordinator LMP plan review & approval (iterative process)
3. If selected, an interim report will be presented at the 2014 Wisconsin Lakes Partnership Convention in Stevens Point
4. If selected, a final presentation will be given at the 2015 convention and at the North American Lake Management Society Conference.
5. Guide for board of adjustment and municipal plan commissions
 - a. Exceptions to the zoning ordinance.
 - b. Determining the minimum variance necessary
6. A single hard copy and digital copy of all approved LMP\2019s will be given DNR Lake Coordinator.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional lake coordinator.

Alpine Lake LMP Approval Letter	Ted Johnson Approval Letter	Ted Johnson	6/29/2016		
Alpine Lake, Waushara County, Wisconsin Lake Management Plan	The purpose of this plan is to provide a framework for the protection and improvement of the lake. Implementing the content of this lake management plan (LMP) will enable citizens and other supporters to achieve the vision for Alpine Lake now and in the years to come. The plan was developed by community members who learned about the lake and identified features important to the Alpine Lake community to help guide the fate of the lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake and identifies steps to correct past problems, improve on current conditions, and provide guidance for future boards, lake users, and technical experts. Because many entities are involved in lake and land management, it can be challenging to navigate the roles, partnerships and resources that are available; the planning process and content of this plan have been designed to identify where some key assistance exists. The actions identified in this LMP can serve as a gateway for obtaining grant funding and other resources to help implement activities outlined in the plan.	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2015		
Approval of Comprehensive Lake Management Plan	Approval of Comprehensive Lake Management Plan	Department of Natural Resources	4/7/2017

Big Hills lake Mgmt Letter of Concern	<p>A letter directed to: Department of Natural Resources, the Director of Waushara Zoning and land Conservation, along with the University of Wisconsin Stevens Point. Expressing concerns regarding "Comments and Recommendations Regarding the Waushara County Comprehensive lake Planning Process."</p>	Big Hills Lake Mgmt Board Members	1/30/2017	
Big Silver Lake LMP Approval	<p>An approval letter for the APM of Big Silver Lake in Waushara County.</p>	Ted M. Johnson	5/3/2017	

Wisconsin Department of Natural Resources SWIMS Project Summary

Big Silver Lake Management Plan	This lake management plan (LMP) and the process used to create and update it allow the community to guide the health of its lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake over the next 20 years. It will provide guidance for future boards, lake users, and technical experts by identifying which issues have been addressed and how successful previous efforts were. Each plan is unique, dependent upon the conditions of the lake, its watershed, and the interests of the stakeholders involved. The actions identified in a LMP can serve as a gateway for obtaining resources, including grant funding, to help implement activities outlined in the plan. Because many entities are involved in lake and land management, it can be challenging to navigate the roles, partnerships, and the resources that are available. From the beginning of this plans development, efforts have been made to identify where key assistance exists and identify opportunities for ensuring that the lakes ecological, aesthetic, and recreational opportunities are plentiful into the future.	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2016	
Big Silver Lake, Waushara Co LMP Approval		Ted Johnson	5/3/2017	
Bughs Lake LMP Approval	The approval letter for the LMP at Bughs Lake in Waushara County.	Ted M. Johnson	12/12/2014

Curtis Lake LMP Approval Letter	The approval letter for the LMP at Curtis Lake in Waushara County.	Ted M. Johnson	10/17/2016	

Wisconsin Department of Natural Resources SWIMS Project Summary

Curtis Lake, Waushara County, Wisconsin Lake Management Plan	<p>The purpose of this plan is to provide a framework for the protection and improvement of Curtis Lake. Implementing the content of this lake management plan (LMP) will enable citizens and other supporters to achieve the vision for Curtis Lake now and in the years to come. The plan was developed by community members who learned about the lake and identified features important to the Curtis Lake community to help guide the fate of the lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake and identifies steps to correct past problems, improve on current conditions, and provide guidance for future boards, lake users, and technical experts. Because many entities are involved in lake and land management, it can be challenging to navigate the roles, partnerships and resources that are available; the planning process and content of this plan have been designed to identify where some key assistance exists. The actions identified in this LMP can serve as a gateway for obtaining grant funding and other resources to help implement activities outlined in the plan.</p>	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2016	
Deer Lake LMP Approval Letter	The approval letter for the LMP at Deer Lake in Waushara County.	Ted M. Johnson	5/8/2015	

Wisconsin Department of Natural Resources SWIMS Project Summary

Deer Lake Management Plan	<p>This lake management plan (LMP) and the process used to create and update it allow the community to guide the health of its lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake over the next 20 years. It will provide guidance for future boards, lake users, and technical experts by identifying which issues have been addressed and how successful previous efforts were. Each plan is unique, dependent upon the conditions of the lake, its watershed, and the interests of the stakeholders involved. The actions identified in a LMP can serve as a gateway for obtaining resources, including grant funding, to help implement activities outlined in the plan. Because many entities are involved in lake and land management, it can be challenging to navigate the roles, partnerships, and the resources that are available. From the beginning of this plans development, efforts have been made to identify where key assistance exists and identify opportunities for ensuring that the lakes ecological, aesthetic, and recreational opportunities are plentiful into the future.</p>	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2015	
Fish Lake LMP Approval Letter	The approval letter for the LMP at Fish Lake in Waushara County.	Ted M. Johnson	4/7/2017	

Wisconsin Department of Natural Resources SWIMS Project Summary

Fish Lake, Waushara County, Wisconsin Lake Management Plan	<p>The objective of this plan is to provide a framework for the protection and improvement of Fish Lake. Implementing the content of this LMP will enable citizens and other supporters to achieve the vision for Fish Lake now and in the years to come. The plan was developed by community members who learned about the lake and identified features important to the Fish Lake community to help guide the fate of the lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake and identifies steps to correct past problems, improve on current conditions, and provide guidance for future boards, lake users, and technical experts. Wisconsin Department of Natural Resources SWIMS Project Summary

Kusel Lake Management Plan	<p>The purpose of this plan is to provide a framework for the protection and improvement of Kusel Lake. Implementing the content of this lake management plan (LMP) will enable citizens and other supporters to achieve the vision for Kusel Lake now and in the years to come. The plan was developed by community members who learned about the lake and identified features important to the Kusel Lake community to help guide the fate of the lake. It is a dynamic document that identifies goals and action items for the purpose of maintaining, protecting and/or creating desired conditions in a lake and identifies steps to correct past problems, improve on current conditions, and provide guidance for future boards, lake users, and technical experts. Because many entities are involved in lake and land management, it can be challenging to navigate the roles, partnerships and resources that are available; the planning process and content of this plan have been designed to identify where some key assistance exists. The actions identified in this LMP can serve as a gateway for obtaining grant funding and other resources to help implement activities outlined in the plan.</p>	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2015	
Lake Huron, Waushara County, Wisconsin Lake Management Plan	<p>The following goals, objectives, and associated actions were derived from the values and concerns of citizens and members of the Lake Huron Management Planning Committee, and the known science about Lake Huron, its ecosystem and the landscape within its watershed. Implementing and regularly updating the goals and actions in the Lake Huron Management Plan will ensure that the vision is supported and that changes or new challenges are incorporated into the plan. A management plan is a living document that changes over time to meet the current needs, challenges and desires of the lake and its community. The goals, objectives and actions listed in this plan should be reviewed annually and updated with any necessary changes.</p>	Center for Watershed Science and Education University of Wisconsin-Stevens Point	1/1/2016
