

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPT-307-07A

Name: MARINETTE COUNTY: LCO-Marinette County Lake Classification Project

Type: Lakes Grant

Subtype: Lake Protection Grant

Status: COMPLETE

Start Date: 9/1/2006

End Date: 6/30/2009

Purpose: Marinette Co. proposes to contact a project for Lake Classification Implementation to support their lakes by ensuring optimum program implementation at the county level. Description of project goals & objectives will be: Develop process for certifying contractors that work in water quality management areas; Enter photos and shoreline assessment data on riparian parcels in the County GIS; Produce & print an updated, Marinette Co.- specific shoreland zoning brochure; Expand the Citizen Lake Monitoring program in Marinette County and increase volunteerism; Analyze water samples gathered by our Water Quality Investigation Program; Lay the groundwork for a monitoring effort to measure the long term impacts of shoreline development on fish, wildlife, insects, flora, etc. in at risk water bodies; Create a county wide manure spreading layer in the County GIS that would rank farms by need, for manure storage; Initiate compliance checking procedures for NR151 implementation strategy.
Description of project products or deliverables will be: contractor training will result in a list of earthmoving contractors certified for working in shoreland areas. An effort will be also made to revise their Shoreland/Wetland Zoning Ord to require that only trained, certified earthwork contractors work in Water Quality Management Zone; geodata base in the County GIS containing riparian parcels, pictorial data, & shoreline assessments; updated and improved shoreland zoning brochure; list of educated and motivated Lake Monitoring Volunteers and better relationships and coordination between environmental organizations; Water Quality Investigation reports on two Marinette County lakes; preliminary reports on results of biological impact monitoring of two lakes and two sections of the Peshtigo flowages; maps showing high hazard areas for winter spreading of manure in the GB07-10 watersheds; and maps and tables showing NR151 compliance status in the GB07-10 watersheds.

Objective:

Comments: Grantee is MARINETTE COUNTY

Outcome:

Study Design:
