

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: NKE3

Name: Big Wood Lake PWS Plan - Nine Key Element Plan

Type: Water Quality Planning

Subtype: Priority Watershed Plan

Status: COMPLETE

Start Date: 5/1/2001

End Date: 12/31/2019

Purpose: This plan assesses the nonpoint sources of pollution in the Big Wood Lake Watershed and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for Big Wood Lake and its tributaries.

Objective: The primary objective of the project is to reduce nonpoint source pollution to the twenty-two lakes and two streams within the watershed and to enhance and protect groundwater quality.

Comments:

Outcome: Burnett County Land and Water Conservation Department will contact all landowners who are eligible to receive cost-share funds during the project's implementation. Management classifications of critical and eligible sites are determined based on level of pollution control needed to achieve water quality objectives in the watershed.
