Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: NKE14

Name: Lower Little Wolf River PWS Plan - Nine Key Element Plan

Type: Water Quality Planning

Subtype: Priority Watershed Plan

I & E Activities

Status: COMPLETE

Start Date: 6/1/1997 **End Date:** 12/31/2018

Purpose: The Lower Little Wolf River Priority Watershed Project plan assesses the nonpoint sources of pollution in the Lower Little Wolf

River Watershed and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for Lower Little Wolf River. The purpose of this project is to reduce the amount of pollutants originating from nonpoint sources that reach surface water and groundwater within the Lower Little Wolf River

Priority Watershed Project area.

Objective: The primary objective of the project is to reduce nonpoint source pollution to the surface water and groundwater, and to

enhance and protect the water quality of streams in the Lower Little Wolf River Watershed.
