

## Wisconsin Department of Natural Resources SWIMS Project Summary

**General Project Information**

**Project ID:** NKE16

**Name:** Middle Peshtigo-Thunder Rivers PWS Plan - Nine Key Element Plan

**Type:** Water Quality Planning

**Subtype:** Priority Watershed Plan

**Status:** COMPLETE

**Start Date:** 8/1/1998

**End Date:** 12/31/2019

**Purpose:** The Middle Peshtigo-Thunder Rivers Priority Watershed Project plan assesses the nonpoint sources of pollution in the Middle Peshtigo-Thunder Rivers Watershed and guides the implementation of pollution prevention and control measures during the next 10 years. These control measures are needed to maintain the excellent water quality in the watershed and to meet specific water resource objectives for the Middle Peshtigo-Thunder Rivers Watershed. The watershed is unique in that it has a protection approach rather than the traditional remediation focus.

**Objective:** The primary objective of the project is to protect the water quality and reduce existing sources of nonpoint source pollution. This project will take a proactive approach to prevent nonpoint source pollution and the loss of fish and wildlife habitat
