

Wisconsin Department of Natural Resources  
SWIMS Project Summary

General Project Information

**Project ID:** NKE81

**Name:** Upper West Branch Pecatonica River PWS Plan - Nine Key Element Plan

**Type:** Water Quality Planning

**Subtype:** Priority Watershed Plan

**Status:** COMPLETE

**Start Date:** 3/1/1982

**End Date:** 12/31/1995

**Purpose:** The purpose of a priority watershed plan is to access the specific causes and critical sources of the water quality problems and identify the most practicable means of abating those pollution problems.

**Objective:** This plan will focus on: 1) assessment of the existing water quality problems 2) identification of the water quality improvements or objectives that can be reasonably achieved 3) assessment of nonpoint sources of pollution along with point sources, septic systems and other sources as appropriate 4) identification of the priority management area and BMPs which are most practicable to abate the pollution

**Comments:**

**Outcome:** The program for implementation includes: 1) the tasks necessary to implement the needs identified in the plan 2) agencies responsible for carrying out those tasks 3) the time frame for carrying out tasks

**Study Design:** <http://dnr.wi.gov/topic/nonpoint/documents/9kep/expired/UpperWestPecatonica.pdf>

**QA Measures:**
