

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL162817

Name: FOX WOLF WATERSHED ALLIANCE: Winnebago Lakes Comprehensive Planning - Lake Winnebago

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 2/15/2017

End Date: 12/31/2018

Purpose: The Fox \2013 Wolf Watershed Alliance is sponsoring a project to develop a Comprehensive Lake Management Plan (LMP) for Lake Winnebago.

Specific project activities include: 1) Develop communication strategy; 2) Create LMP structural framework; 3) Develop committees for each LMP element; 4) Establish issue related focus groups and encourage stakeholder participation; 5) Determine need for third party consultant assistance.

Project final deliverables include: 1) Committees identify outstanding issues, data gaps and possible actions to address lake issues, 2) Committees begin to draft language for LMP sections, 3) Hold 3 Town-hall meetings; 4) Develop website; 5) Issue press releases; 6) If determined necessary, engage third party consultants for project assistance; 7) Develop Phase 4 strategy for completion of LMP.

Special Conditions: 1) All data shall be entered into the SWIMS database; 2) Draft sociological/user surveys and shoreline assessments must be reviewed and approved by the Department before being initiated. 3) Documentation of volunteer labor and donated services shall be collected and maintained in accordance with grant program guidelines for reporting in kind donations.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

Final reports: it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

Objective:

Comments: Grantee is FOX WOLF WATERSHED ALLIANCE

Outcome:

Study Design:

An Introduction to the Winnebago Waterways Lake Management Plan	The Winnebago Waterways Recovery Area sits within the larger Upper Fox and Wolf River Basins. The project area spans six counties and includes the four Winnebago Pool Lakes as well as the surrounding subwatersheds. While most lake management plans focus mainly on in-lake issues, this plan is being written as a watershed plan. This means the lake management plan will address in-lake issues as well as runoff from urban and agricultural landscapes which can have a negative impact on water quality.	Fox-Wolf Watershed Alliance	9/1/2020
