

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL161317

Name: TOWN OF PRESQUE ISLE: Wilderness Waters: South Branch Presque Isle River

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 2/15/2017

End Date: 12/31/2019

Purpose: The Town of Presque Isle is sponsoring a large scale lake planning grant to study the South Branch of the Presque Isle River, in Vilas County.

Project activities include: 1) Gather and assess existing lake info; 2) PI aquatic plant survey, community and substrate mapping and analysis; 3) Shoreland assessment; 4) Professional and volunteer AIS monitoring; 5) Educational program \2013 meetings and \201Cfloating\201D workshop; 6) Watercraft inspections; 7) Develop LMP.

Project deliverables include: 1) PI, AIS and shoreland habitat data; 2) Aquatic plant community and substrate maps; 3) Aquatic plant vouchers; 4) Education materials; 5) Entered inspection data; 6) LMP.

Specific conditions for this project: LMP needs Dept review and approval.

WDNR Lakes Management Coordinator will be provided with an electronic (pdf or word) copy of LMP, PI, AIS, and shoreland habitat data, a set of aquatic plant vouchers, all maps from project, and all GIS data.

Wisconsin Department of Natural Resources SWIMS Project Summary

Title	Description	Author	Published	Comments
Presque Isle Wilderness Waters Program - Aquatic Plant Management Plan - South Branch Presque Isle River	The Presque Isle Town Lakes Committee also includes streams within its purview and as such, this aquatic plant management plan addresses the South Branch Presque Isle River. Although it addresses a single body of water, the plan maintains the waterscape perspective crucial to effective resource stewardship. This is especially important when it comes to preventing introduction and establishment of aquatic invasive species (AIS). The closely related Wilderness Waters Adaptive Management Plan (Stine et al., 2019) provides additional overarching waterscape level examination that allows greater opportunity and efficiency in water resource management and education.	White Water Associates, Inc.	3/1/2019	
The Wilderness Waters Adaptive Management Plan (Presque Isle Township, Vilas County, Wisconsin) 2019	This Wilderness Waters Adaptive Management Plan began with a large-scale project funded by a Wisconsin Department of Natural Resources (WDNR) Aquatic Invasive Species Control Grant that was awarded in 2010. The project was sponsored by the Presque Isle Town Lakes Committee (PITLC). White Water Associates, Inc., an independent ecological consulting firm, was a consultant to the PITLC. This plan was updated and this 2019 version is its most recent update. As the name implies, this plan is intended to be adapted as new information becomes available or new actions are identified.	White Water Associates, Inc.	5/1/2019
