

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL161217

Name: TOWN OF PRESQUE ISLE: Wilderness Waters: Papoose Lake

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 2/15/2017

End Date: 12/31/2019

Purpose: The Town of Presque Isle is sponsoring a large scale lake planning grant to study Papoose Lake, in Vilas County. The project will focus on developing a Lake Management Plan (LMP) for Papoose Lake.

Project activities include: 1) Gather and assess existing lake info; 2) PI aquatic plant survey, community and substrate mapping and analysis; 3) Shoreland assessment; 4) Professional and volunteer AIS monitoring; 5) Educational program \2013 meetings and \201Cfloating\201D workshop; 6) Watercraft inspections; 7) Develop LMP.

Project deliverables include: 1) PI, AIS and shoreland habitat data; 2) Aquatic plant community and substrate maps; 3) Aquatic plant vouchers; 4) Education materials; 5) Entered inspection data; 6) LMP.

Specific conditions for this project: LMP needs Dept review and approval.

WDNR Lakes Management Coordinator will be provided with an electronic (pdf or word) copy of LMP, PI, AIS, and shoreland habitat data, a set of aquatic plant vouchers, all maps from project, and all GIS data.

Wisconsin Department of Natural Resources SWIMS Project Summary

Title	Description	Author	Published	Comments
Presque Isle Wilderness Waters Program - Aquatic Plant Management Plan - Papoose Lake	The Presque Isle Wilderness Waters Program results from the efforts of the Presque Isle Town Lakes Committee, an organization that has been active since 2005. The Lakes Committee views stewardship of the lakes as an ongoing endeavor that is integrated, coordinated, and administered by the Lakes Committee. This perspective reflects the appropriate range of geographic scales from which to approach lake stewardship: a lake specific focus that goes hand-in-hand with waterscape-wide awareness. Although this aquatic plant management plan (APMP) addresses Papoose Lake in Vilas County, Wisconsin, it maintains the waterscape perspective crucial to effective lake stewardship. This is especially important when it comes to addressing introduction aquatic invasive species (AIS). The closely related Wilderness Waters Adaptive Management Plan (Stine et al., 2019) provides additional overarching waterscape level examination that allows greater opportunity and efficiency in water resource management and education.	White Water Associates, Inc.	3/1/2019	
The Wilderness Waters Adaptive Management Plan (Presque Isle Township, Vilas County, Wisconsin) 2019	This Wilderness Waters Adaptive Management Plan began with a large-scale project funded by a Wisconsin Department of Natural Resources (WDNR) Aquatic Invasive Species Control Grant that was awarded in 2010. The project was sponsored by the Presque Isle Town Lakes Committee (PITLC). White Water Associates, Inc., an independent ecological consulting firm, was a consultant to the PITLC. This plan was updated and this 2019 version is its most recent update. As the name implies, this plan is intended to be adapted as new information becomes available or new actions are identified.
