

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL-1178-07

Name: LAKE METONGA ASSOCIATION, INC.: Lake Metonga Management Planning Project

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 4/1/2007

End Date: 12/31/2008

Purpose: Lake Metonga Association, Inc is sponsoring a large scale lake planning grant to study Lake Metonga in Forest County with a study completion date of June 30, 2008. The project will focus on developing an Aquatic Plant Management Plan (APMP) for Lake Metonga. Completion of an APMP will allow for potential Aquatic Invasive Species (AIS) cost sharing grants and permits for Eurasian water-milfoil (EWM) control.

Project activities include:

- 1) Stakeholder participation - informational meeting, survey, planning meeting, wrap-up meeting, news release, and newsletter article
- 2) Water quality sampling by CLMN volunteer (Secchi, P, Chla, DO, and temp)
- 3) Spring and summer EWM assessment
- 4) Fisheries assessment
- 5) Watershed assessment
- 6) Develop APMP

Project deliverables include:

- 1) Stakeholder survey, news release and newsletter article
- 2) Watershed maps
- 3) APMP

Specific conditions for this project:

- Draft of stakeholder survey should be submitted to Lakes Management Coordinator for review before sending to public
- APMP needs Dept review and approval

WDNR Lakes Management Coordinator will be provided with an electronic (pdf or word) and hard copy of APMP, news release, newsletter article, stakeholder survey, data from watershed assessment, and all maps from project.

Objective:

Comments: Grantee is LAKE METONGA ASSOCIATION, INC.

Title	Description	Author	Published	Comments
Lake Metonga Forest County, Wisconsin Aquatic Plant Management Plan	The primary goal of this project was to complete a Comprehensive Management Plan for Lake Metonga. Studies designed to collect baseline information concerning the lake's water quality, its native and non-native plant communities, and its watershed were be used with historic data concerning those components and that of the lake's fishery to reach conclusions regarding the health and function of the lake as an ecosystem. That information, along with information obtained through the efforts for the stakeholder participation component was combined to devise a long-term and realistic management plan for Lake Metonga.
