

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: RP-139-08

Name: PLATTEVILLE COMMUNITY ARBORETUM, INC: Rountree Branch Watershed-Comprehensive Mgmt. Plan Development

Type: River Grant

Subtype: River Planning Grant

Status: COMPLETE

Start Date: 7/1/2007

End Date: 12/31/2009

Purpose: The primary goals and objectives of this project are to: 1) establish a collaborative organization of stakeholders that will work together on the management, recreation, conservation, restoration and understanding of the Roundtree Branch watershed; 2) develop a comprehensive management plan for the watershed; and 3) facilitate educational opportunities.

Please note: Final report deliverables help us ensure that the grant has been satisfactorily completed, and that state dollars are being spent wisely. Every deliverable, no matter how minor, must be completed in order to receive full reimbursement for the state share of costs. Ranking questions used to obtain this award, and specific deliverables mentioned in your grant description, constitute final report deliverables. If any deliverable is not adequately provided in the final report, only partial reimbursement, at the department's discretion, will be made. The only exception will be if there is a well-justified and department-approved scope amendment. If you have any question about what a specific ranking question or other deliverable means, please contact your river coordinator BEFORE you sign this agreement.

Objective:

Comments: Grantee is PLATTEVILLE COMMUNITY ARBORETUM, INC

Outcome:

Study Design:
