

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: RP-141-08

Name: SAUK PRAIRIE RIVER PROJECTS ASSOC. LTD: Lower Wisconsin River-Survey of Floodplain Fisheries

Type: River Grant

Subtype: River Planning Grant

Status: COMPLETE

Start Date: 7/1/2007

End Date: 6/30/2009

Purpose: This project, which is part 1 of a two-part project, focuses on collection of new scientific data on nongame fishes and other aquatic life inhabiting backwater sloughs of the Lower Wisconsin river. The findings of this project will fill important gaps in the database for off-channel fisheries and associated aquatic life along the river.

Please note: Final report deliverables help us ensure that the grant has been satisfactorily completed, and that state dollars are being spent wisely. Every deliverable, no matter how minor, must be completed in order to receive full reimbursement for the state share of costs. Ranking questions used to obtain this award, and specific deliverables mentioned in your grant description, constitute final report deliverables. If any deliverable is not adequately provided in the final report, only partial reimbursement, at the department's discretion, will be made. The only exception will be if there is a well-justified and department-approved scope amendment. If you have any question about what a specific ranking question or other deliverable means, please contact your river coordinator BEFORE you sign this agreement.

Objective:

Comments: Grantee is SAUK PRAIRIE RIVER PROJECTS ASSOC. LTD
