

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPT67220

Name: GREEN LAKE SANITARY DISTRICT: LMI - Big Green Lake (Fond du Lac Co.) Implementation Grant 2020

Type: Lakes Grant

Subtype: Lake Protection Grant

Status: COMPLETE

Start Date: 4/15/2020

End Date: 12/31/2023

Purpose: The Green Lake Sanitary District is sponsoring a lake management implementation grant to fund best management practices in the Dakin Creek watershed. The project was partially funded so the initial scope of work has been reduced to match the level of funding as described in the amended application signed on April 22, 2020.

Project final deliverables include: all data collected, agendas and minutes for planning meetings, and a lake management plan that includes methodologies, results, and management alternatives discussion with an implementation plan.

Specific project activities include: 1) Continuous cover crop and no-tillage practices will be practiced on a 68-acre field. These practices will continue for at least three years.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

Objective:

Comments: Grantee is GREEN LAKE SANITARY DISTRICT
