

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: RP-166-09

Name: VILLAGE OF PLOVER: Little Plover Study

Type: River Grant

Subtype: River Planning Grant

Status: COMPLETE

Start Date: 7/1/2008

End Date: 6/30/2009

Purpose: The Village of Plover, in cooperation with the Village of Whiting and other partners, proposes to contract with Earth Tech for studies associated with the development of a new water supply well; a key objective of the project being protection of the Little Plove River from diminished flow due to local groundwater demand. Key elements of the project to include: 1) Identification of potential well sites, 2) Collection of hydrological data, 3) Data base research associated with potential sites, 4) Water samples, 5) Area surveys, 6) Mapping, 7) Final report.

Objective:

Comments: Grantee is VILLAGE OF PLOVER

Wisconsin Department of Natural Resources SWIMS Project Summary

Monitor Water Quality or Sediment	The Village of Plover, in cooperation with the Village of Whiting and other partners, proposes to contract with Earth Tech for studies associated with the development of a new water supply well; a key objective of the project being protection of the Little Plove River from diminished flow due to local groundwater demand. Key elements of the project to include: 1) Identification of potential well sites, 2) Collection of hydrological data, 3) Data base research associated with potential sites, 4) Water samples, 5) Area surveys, 6) Mapping, 7) Final report.	7/1/2008	6/30/2009	COMPLETE
Monitor Watershed (Status,Sources,Impairments)	The Village of Plover, in cooperation with the Village of Whiting and other partners, proposes to contract with Earth Tech for studies associated with the development of a new water supply well; a key objective of the project being protection of the Little Plove River from diminished flow due to local groundwater demand. Key elements of the project to include: 1) Identification of potential well sites, 2) Collection of hydrological data, 3) Data base research associated with potential sites, 4) Water samples, 5) Area surveys, 6) Mapping, 7) Final report.	7/1/2008	6/30/2009	COMPLETE
Grant Awarded	The Village of Plover, in cooperation with the Village of Whiting and other partners, proposes to contract with Earth Tech for studies associated with the development of a new water supply well; a key objective of the project being protection of the Little Plove River from diminished flow due to local groundwater demand. Key elements of the project to include: 1) Identification of potential well sites, 2) Collection of hydrological data, 3) Data base research associated with potential sites, 4) Water samples, 5) Area surveys, 6) Mapping, 7) Final report.	7/1/2008	12/31/2008	COMPLETE
Monitor and/or Protect Groundwater, Sourcewater	The Village of Plover, in cooperation with the Village of Whiting and other partners, proposes to contract with Earth Tech for studies associated with the development of a new water supply well; a key objective of the project being protection of the Little Plove River from diminished flow due to local groundwater demand. Key elements of the project to include: 1) Identification of potential well sites, 2) Collection of hydrological data, 3) Data base research associated with potential sites, 4) Water samples, 5) Area surveys, 6) Mapping, 7) Final report.	7/1/2008	6/30/2009	COMPLETE
