

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL178021

Name: TOWN OF PRESQUE ISLE: Carlin Lake Shoreland and Shallow Water Assessment

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 3/12/2021

End Date: 12/31/2022

Purpose: Project Scope and Description of Deliverables

The Town of Presque Isle is sponsoring a surface water planning grant to survey the shoreland and shallow water area of Carlin Lake, Vilas County, WI to establish a baseline condition.

Project final deliverables include: All data collected from the shoreland survey and the summary report.

Specific project activities include: 1) Shoreland and shallow water assessment; 2) Summary report

Special Conditions: 1) Draft of summary report needs Dept review and approval

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive an electronic .pdf copy of the final report along with, or prior to submission of grantee's final payment request.

Objective:

Carlin Lake (Vilas County, Wisconsin) Shoreland and Shallows Habitat Monitoring Report	Landowners can look at their own parcels to see how they were scored on the assessment with regard to impervious surfaces, manicured lawns, human structures, and broad runoff concerns. If their parcel is highlighted with one or more of these issues, stormwater reduction and/or habitat improvement practices could be designed and implemented. The Healthy Lakes program in Wisconsin provides simple, practical, and inexpensive best practices that improve habitat and water quality on lakeshore property (see https://healthy-lakes.wi.gov for additional information and guidance on funding projects). Cathy Higley (Vilas County Lake Conservation Specialist) is an expert who can visit properties and provide more detailed assessment and assistance in developing stormwater reduction and/or habitat improvement practices for Healthy Lake Projects. A potential partner for landowners that would be interested in protecting high quality natural shorelines is the Northwoods Land Trust.	White Water Associates	1/1/2022
