

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL176921

Name: BONE LAKE MANAGEMENT DISTRICT: Design for Shoreline Stabilization and Runoff Control

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 3/15/2021

End Date: 12/31/2023

Purpose: Project Scope and Description of Deliverables

The Bone Lake Management District is sponsoring a project to conduct site visits and develop designs for Shoreline Stabilization and Runoff Control projects around Bone Lake.

Project final deliverables include: all data collected, designs and plans for projects on Bone Lake properties.

Specific project activities include: 1) Shoreline stabilization site visits and design; 2) Waterfront runoff control design; 3) Healthy Lake native planting support

Special Conditions: 1) All data shall be entered into the SWIMS database; 2) Projects and plans must follow NRCS technical guides.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

Objective:

Comments: Grantee is BONE LAKE MANAGEMENT DISTRICT
