

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL176621

Name: THREE LAKES WATERFRONT ASSOCIATION: Three Lakes Chain Environmental Monitoring Phase II - Deer

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 3/15/2021

End Date: 12/31/2022

Purpose: Project Scope and Description of Deliverables

The Three Lakes Waterfront Association (TLWA) is sponsoring a project which will focus on updating water quality, aquatic plant, and aquatic invasive species (AIS) information as part of their Lake Management Plan (LMP). This is expected to be part of Phase 2 of 8 with the remaining lakes in the Chain to follow in subsequent projects. The Project has the following goals/activities: 1) Sample lake water quality; 2) Conduct aquatic plant point-intercept (PI) surveys (following DNR protocol), early season AIS mapping surveys (for EWM and CLP), and aquatic plant community mapping; 3) Monitor purple loosestrife (PL) and yellow iris (YI) populations.

Project deliverables include: 1) Data from water quality monitoring, aquatic plant surveys, and PL and YI monitoring; and 2) an annual project report.

Specific project conditions: WDNR Lake Biologist will be provided with an electronic copy of reports; data from water quality, aquatic plant, and AIS monitoring and surveys; all maps and GIS data from project.

This scope summarizes the project detail provided in the grant application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.
