

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SCR_04_CMP10

Name: German Valley and Pleasant Valley SP12

Type: TMDL/303d Projects

Subtype: Evaluate for Delisting

Status: COMPLETE

Start Date: 7/1/2009

End Date: 6/30/2010

Purpose: Monitoring of these two streams will take place in order to comply with the EPA SP-12 measure to show improved water quality conditions. Each stream has had major rehabilitation of the watershed and stream corridor. This monitoring will determine whether or not these streams are meeting their natural attainable use and can subsequently be removed from the state's list of impaired waters. Fish IBI, macroinvertebrate IBI/HBI, and habitat measurements will be collected at several sites on each stream and compared with pre-rehabilitation data. Region staff will collect samples during the sampling season in the calendar year 2009. This is a continuation of monitoring started in 2008.

Objective: In accordance with the SP-12 measure, determine if water quality and biotic conditions of these two streams has improved to the point where they are now meeting their attainable use as cold water resources and can be removed from the 303(d) list.

Comments: It is not determinable whether or not decisions will be able to be made for modification of the 2010 list of impaired waters. This determination should be made by 2012.

Outcome: Eight sites on German Valley and four sites on Pleasant Valley will be monitored for fisheries assemblage and habitat. Sample collection will be completed by fall, 2009. Fish and habitat data will be entered into the FH database by December, 2009. Macroinvertebrate data will be entered as soon as available. Reports will be completed during winter, 2009/10.

Name	Role	Status	Start Date	End Date	Organization	Comments
AMRHEIN, JAMES F	PROJECT_LEAD	COMPLETE	7/1/2009	6/30/2010	Wisconsin DNR	

Project Statuses

Date	Reported By	Status	Comments
1/3/2011	JAMES AMRHEIN	Progress: 75-100% Complete	Monitoring for both sites has been completed. Report requesting that German Valley be removed from the list of impaired waters has been completed and will be submitted for the 2012 update. Report on Pleasant Valley is pending because of the ongoing buffer initiative/P-index project that is ongoing in that sub-watershed.
3/26/2012	JAMES AMRHEIN	Progress: 75-100% Complete	Nothing new to report. EPA is mulling over request to delist German Valley.
8/16/2012	JAMES AMRHEIN	Complete	EPA considering German Valley as a "success story". Not sure if they have fully approved removal from the list. The Pleasant Valley data was collected as planned, but because there is an ongoing project in the watershed, this data will only be used as an interim snapshot of the system at that time.

Wisconsin Department of Natural Resources SWIMS Project Summary

1/23/2013	JAMES AMRHEIN	Complete	<p>In December 2012, EPA released a Section 319 Nonpoint Source Success Story that highlighted the improvement of German Valley Branch and its removal from the 303(d) list.</p> <p>Pleasant Valley will have an evaluation monitoring done in 2013 (as part of another SP12 project) in order to gather data to remove it from the 303(d) list for the 2016 update.</p>

Actions

Action	Detailed Description	Start Date	End Date	Status
Control Streambank Erosion	German Valley Creek Middle - Installation of streambank restoration and protection practices. Each stream has had major rehabilitation of the watershed and stream corridor. The water quality objective of the project was to reduce stream bank erosion by 90% resulting in an overall reduction of sediment load of over 7300 tons/year over the whole area of the project. In all, almost 50,000 feet of stream bank was shaped and stabilized, and over 600 fish habitat structures (LUNKERS and weirs) were added to the stream.	4/1/2006	4/1/2008	COMPLETE
