

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: SPL-217-10

Name: THUNDER LAKE CLUB LTD: Thunder Lake APM Planning Project

Type: Lakes Grant

Subtype: Small Scale Lake Planning

Status: COMPLETE

Start Date: 10/1/2009

End Date: 12/31/2011

Purpose: This project builds upon a previous large planning grant in order to strengthen an Aquatic Plant Management Plan currently written and developing a plan for early detection of invasive species and AIS response plan. The tasks will include the following:

1. Conducting an inventory of the aquatic plant community on Thunder using WDNR recommended survey methodology.

2. Identifying problems ad threats to aquatic ecosystem by invasive species along with developing realistic goals for management of Eurasian water milfoil(EWM).

3. Identify management objectives to restore native plant communities and target levels of EWM control.

4. Identify and analyze alternative actions for EWM control.

5. Develop an education plan for TIE Area Lakes Association and community members and develop a community outreach program to distribute AIS prevention information such as the initiating the Clean Boats, Clean Waters program on the lake and Eagle Lake while improving signage at access points.

Two electronic copies and one hard copy of all data and the final project report will be provided to the DNR. At least 4 hard copies of the project data and final report and maps will be provided to the TIE Area Lakes Association. Marinette County LWCD will assist the TIE Lakes Association with implementation and update of the aquatic plant management program as needed.

Objective:
