End Date: 12/31/2013

Purpose: Long Lake District is sponsoring a project that will focus on EWM management, AIS education, prevention and monitoring. This project was partially funded under grant ACEI-031-08 and this grant is a continuation of the same project.

Project activities include: 1) Annual chemical treatments and manual removal of EWM; 2) Annual pre/post treatment monitoring and analysis; 3) Annual volunteer AIS monitoring; 4) Install innovative signage at boat landing; 5) Implement a CB/CW program using volunteers and a paid inspector; 6) Entry of inspection and monitoring forms onto Dept website; 7) Point-intercept (PI) aquatic plant survey and community mapping; 8) Develop annual project report and an updated APM plan.

Project deliverables include: 1) Chemical and manual removal control of EWM; 2) Pre/post treatment, PI survey and community mapping data; 3) Innovative signage and 200 hours of annual inspection time; 4) Completed entry of inspection and monitoring forms onto Dept website; 5) AIS educational, prevention and monitoring activities; 6) Annual reports and an updated APM plan summarizing EWM management during project, future EWM management direction, CB/CW activities, AIS monitoring and AIS educational activities.

Specific Conditions for this project: Updated APM plan needs Dept review and approval
