SWIMS Project Summary

General Project Information

Project ID: LPL183923

Name: LAKE OWEN ASSOCIATION, INC.: COMP - Lake Owen Comprehensive Management Plan Assessment

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: ACTIVE

Start Date: 3/15/2023

End Date: 12/31/2025

Purpose: Lake Owen Association is sponsoring a 2-phase project to update its Comprehensive Lake Management Plan. The first phase focuses on assessment and the second on plan development.

Specific Phase 1 project activities include: 1) shoreland habitat assessment; 2) water quality monitoring, including continuous temperature and outlet flow monitoring; 3) fisheries study; 4) education/outreach; and 5) data evaluation and reporting.

Project final deliverables include: annual progress reports; all data collected; agendas and minutes for planning meetings; education/outreach summary with example promotional and presentation materials; and a Comprehensive Lake Management Plan that includes methodologies, results, and management alternatives discussion with an implementation plan.

Special Conditions: 1) CLMN efforts should not be duplicated, and these data shall be included in the trends analysis and final reporting; 2) All data shall be entered into the SWIMS database; and 4) Shoreland monitoring shall follow DNR approved protocols.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.
