

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** RP37423

**Name:** FRIENDS OF THE LOWER WI RIVERWAY (FLOW): SWE - Lower Wisconsin River Basin Symposium

**Type:** River Grant

**Subtype:** River Planning Grant

**Status:** ACTIVE

**Start Date:** 3/15/2023

**End Date:** 12/31/2024

**Purpose:** Friends of the Lower Wisconsin Riverway (FLOW) is sponsoring a project to hold a Lower Wisconsin River Basin Symposium in 2023.

Project final deliverables include:

Press releases and articles about the event will be copied for inclusion in the final report. The meeting agenda and program will be included, along with a list of land/watershed conservation organizations. A final symposium report will include information on symposium attendance, attendee survey rating responses and comments on the success or limitations of the symposium. The report will also include a compilation of presentations summaries/abstracts. Photographs of the event will be delivered with the final report and include file names and attribution information.

Specific project activities include:

FLOW will plan a one day educational symposium in fall of 2023, to include technical - scientific presentations and citizen - organization watershed restoration and aquatic monitoring presentations. To give greater understanding of the connection between land and water quality, land/waterway restoration strategies for wetland and water quality improvement, and inform people about the unique biological, physical and cultural features of the LWR Basin. A web page will promote the event and invitations will be sent to NGO's, NRCS and LWCD in the basin.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Stream Biologist.
