

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: AIRR-083-10

Name: BARRON COUNTY: Barron County 2010 Japanese Knotweed Early Detection & Response Project

Type: Aquatic Invasives Grant

Subtype: Aquatic Invasives Early Detection and Response

Status: COMPLETE

Start Date: 8/12/2009

End Date: 12/31/2010

Purpose: Barron County Soil and Water Conservation Department is sponsoring a single-season early detection and response project that will monitor and manage pioneering populations of Japanese knotweed adjacent to Rice Lake and the Chetek Chain.

Project activities include: identification, mapping, and management of pioneering colonies. Management may include multiple herbicide applications/methods and mowing.

Project deliverables include: final project report with evaluation results and any educational materials developed.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, reports, and education materials, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional lake coordinator.
