

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: AIRR-084-10

Name: PLEASANT LAKE MANAGEMENT DISTRICT: Pleasant Lake Early Detection & Response Project

Type: Aquatic Invasives Grant

Subtype: Aquatic Invasives Early Detection and Response

Status: COMPLETE

Start Date: 4/1/2010

End Date: 6/30/2013

Purpose: Pleasant Lake Management District proposes to control Eurasian water-milfoil (EWM) in Pleasant Lake by implementing control measures during the period 2010-2013. The project elements and deliverables are specified in the Pleasant Lake Management District's Aquatic Invasive Species Control Grant application, dated April 14, 2010. The project includes conducting pre- and post-treatment surveys, including a full Point Intercept survey, and mapping the extent of EWM; controlling EWM with aquatic herbicide treatments; and implementing an aquatic invasive species prevention strategy that includes developing an information & education program. Annual progress reports and a final report summarizing the one-year project will be provided to DNR. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers" brand (partnership details can be found at: <http://www.protectyourwaters.org>). If consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.

Objective:

Comments: Grantee is PLEASANT LAKE MANAGEMENT DISTRICT
