Purpose: Fifty-one (51) projects by Wisconsin agencies and organizations have been invited by U.S. EPA to complete an application to obtain a Great Lakes Restoration Initiative (GLRI) grant this year. These GLRI grants will provide over \$29 million in federal funds in Wisconsin for the restoration and protection of Lake Michigan and Lake Superior. Thanks to the hard work of hundreds of people across the state, a vast array of important Great Lakes projects will soon be under way. These grants are a tremendous opportunity for Wisconsin and for the Great Lakes. The selected projects address the issues identified in Wisconsin's Great Lakes Strategy, our state's roadmap for the restoration and protection of Lake Michigan and Lake Superior.
