

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: GLRI_00E00476-0

Name: Red Cliff Band of Lake Superior Chippewa Septic System Project

Type: Great Lakes Restoration Initiative

Subtype: Nearshore Health and NPS

Status: ACTIVE

Start Date: 10/1/2010

End Date: 12/31/2099

Purpose: This project proposes to replace or repair a set of aged septic systems on the Red Cliff Reservation. Improperly installed or maintained septic systems may contribute pathogens and nutrients to the surrounding environment and nearby Lake Superior.

Objective: This project proposes to replace or repair a set of aged septic systems on the Red Cliff Reservation. Improperly installed or maintained septic systems may contribute pathogens and nutrients to the surrounding environment and nearby Lake Superior. Local septic system inventories have shown that a large number of rural Northern Wisconsin septic systems are not up to current standards and/or have failed due to age and lack of maintenance. The systems we propose to replace or repair were identified as failed or failing systems during a septic system inventory completed in 2009. A Preliminary Engineering Report is included.
