SWIMS Project Summary

General Project Information

Project ID: WCR_15_CMP12

Name: Stillwell Creek SP-12 Project WCR_15_CMP12 (USGS # BQY41)

Type: Targeted Monitoring

Subtype: Special Project

Status: COMPLETE

Start Date: 7/1/2011

End Date: 6/30/2012

Purpose: Partially fund, with financial contributions from USGS, Ft. McCoy and Monroe County, a USGS gauging station downstream of a cranberry bog on Stillwell Creek. The stream segment downstream of the cranberry bog is a 303d water with an approved TMDL.

Objective: Ft. McCoy has been funding two USGS gauging stations on Stillwell Creek for the past two years. One station is above the cranberry bog and the second gauge is below the bog. The objective in continuing to fund the downstream gauge is to determine the effects of the cranberry grower installed BMPs (tailwater recovery, reservoir water level management and reservoir aeration) and fine tune or establish new BMPs to improve Stillwell Creek and ultimately remove the segment of stream from the impaired waters list.

Comments: Which category applies Project Category 1: EPA Performance Measure SP 12 Project

Outcome: The USGS will provide approved data on their website and any other documents they produce. A powerpoint presentation and report will be completed fairly soon after the 2011 and 2012 growing seasons for feedback to the cooperating agencies and the cranberry grower.

2/1/2013	KURT RASMUSSEN	Progress: 75-100% Complete	Data have been collected and some analysis has been done. The monitoring stations have continued to run with funding from Fort McCoy. I will be working with USGS, Fort McCoy and Monroe County to determine the next steps that need to taken.
11/6/2013	KURT RASMUSSEN	Progress: 75-100% Complete	Most of the data has been collected and analysis has begun. One of the gauging stations will continue to operate with funding from Fort McCoy. In-stream habitat improvements have been scheduled to take place in this stretch of Stillwell Creek during the 2014 field season. I will continue to work with USGS, Fort McCoy and Monroe County to complete a final report.
