## Wisconsin Department of Natural Resources SWIMS Project Summary

| Title  | Description   | Author   | Published | Comments |

| Library Lake Management Plan   | Library Lake is a shallow, 12.8-acre lake located in the city of Cumberland (T35N R 13W S7) in Northwest Wisconsin (WBIC 2081500). A map of the project area is shown as Figure I. Library Lake is connected to Beaver Dam Lake by a box culvert under Grove Street. Aquatic plants cover nearly the entire lake bottom with emergent plants along the shoreline and in shallow water; floating plants at moderate depths; and submerged vegetation in the deepest water. The maximum lake depth is approximately 20.5 feet at normal water levels. | Harmony Environmental & Emmons & Olivier Resources, Inc. | 3/1/2010  |          |

| Library Lake Restoration Proposal [appendices]   | Library Lake was once a pristine, sand-bottom recreational treasure of the City of Cumberland, providing visitors with their first "signature view" of the Island City. Baby boomers recall the 1960s, when Library Lake was used for swimming, waterskiing, fishing, and boats could dock and use businesses in town. It was the gateway to Beaver Dam Lake, the envy of every visitor who drove through Cumberland; a vibrant part of the community and a major source of civic pride.  | Harmony Environmental & Emmons & Olivier Resources, Inc. | 3/1/2010  |          |
