

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SSA Plan Wisconsin Rapids

Name: Wisconsin Rapids SSA Plan

Type: Water Quality Planning

Subtype: Sewer Service Area Plans

Status: COMPLETE

Start Date: 4/1/2011

End Date: 12/31/2099

Purpose:

<p>The statewide Areawide Water Quality Management Plan (AWQMP) is a collection of documents that describe the overall condition and resources within a given area. These plans form the foundation for the management of water quality. The AWQMP serves as a platform for subsequent water quality initiatives and activities, including point and nonpoint pollutant plans, monitoring activities, and related environmental resource considerations. One item found under the umbrella of Areawide Water Quality Management Planning is the Sewer Service Area Plan. Sewer Service Area plans are specific to infrastructure development within municipal areas and outline 20-year service areas for public sewers. </p>

<p>Sewer Service Area Plans outline 20-year growth boundaries and sensitive areas to protect water quality by proactively addressing the future needs for wastewater collection and treatment in developing areas. This planning helps protect water resources from adverse impacts by facilittin cost-effective and environmentally sound sewerage system planning. Plans identify existing sewerred areas as well as available land suitable for new development. The process also identifies areas not suitable for public sewer including but not limited to environmentally sensitive areas (NR 121.05(l)(g)2.c).</p>

<p>Goals to establish service area plans and policies relating to wastewater collection and treatment are best developed in tandem with Comprehensive Planning. Policies framing service area planning decisions include:</p>

<p>• Providing cost-effective collection and treatment facilities;

- Consideration of current and anticipated development or redevelopment that conforms with Comprehensive Plans;

- Providing collection and treatment infrastructure improvement and upgrades accommodating 7-yr design events, and addressing NPDES permitting and EPA guidelines;

- Providing collection and treatment facilities that comply with state and federal regulations and protection of sensitive resources such as headwaters, springs and wetlands;

- Optimizing Main and CSO treatment plant performance and efficiency;

- Optimize industrial pretreatment and pollution prevention strategies;

- Interagency cooperation and public involvement.</p>

<p>With input from Planning, Engineering, and Wastewater, and WDNR SSA Planning effectuates long-term water quality protection by designating as environmentally sensitive wetlands, shorelands, floodplains, steep slopes, lands with erodible soils, and environmentalhy limiting areas within the planning boundary. Additional areas within the City's limits which are guarded from sewerred development include parks, the municipal forest and other valuable recreational areas.</p>

Project Statuses

Date	Reported By	Status	Comments
5/5/2011	FRANCES KEALLY	Active	Gary Wood was out on leave through much of January through March. He is now working on setting up a meeting with the stakeholders involved. Note to Fran: check in regarding progress at end of May.
5/24/2011	FRANCES KEALLY	Active	Lisa Helmuth and I conducted a conference call with Gary Popelka to review the status of the grant and to discuss his timeline. We talked about DNR assistance, and I subsequently sent emails to Brad Johnson and Scott Provost regarding their possible assistance to Gary in stormwater and water quality issues and spoke to Pete Pfefferkorn who will contact Gary. Gary plans to call the first policy committee meeting for the first week in June, with monthly meetings to follow. It appears that are no big boundary or treatment issues, so it is primarily a matter of updating and including the ESA maps and updating all the population information, and looking at stormwater and shoreland guidelines.
9/27/2011	FRANCES KEALLY	Active	Stakeholder meetings were held on July 6th, and scheduled for Sept 7 and Oct 5. July minutes were submitted and uploaded.

Actions

Action	Detailed Description	Start Date	End Date	Status
Protect Riparian or Shorelands	Address the issue of WQ protection and development along Nepco Lake and the Four-mile Creek. SSA Plan Committee agreed to extend the proposed area after counseling with the Village of Port Edwards.	4/1/2011	12/31/2011	IN_PROGRESS
Urban Growth Planning	SSA Planning and Updates for Wisconsin Rapids	4/1/2011	12/31/2011	IN_PROGRESS
