

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

<b>Project ID:</b>	CAC_4_2011
<b>Name:</b>	Citizen Monitoring of Degraded Aesthetics Green Bay and Lower Fox River AOC
<b>Type:</b>	Great Lakes Restoration Initiative
<b>Subtype:</b>	Toxics and Areas of Concern
<b>Status:</b>	COMPLETE
<b>Start Date:</b>	5/24/2011
<b>End Date:</b>	12/31/2018
<b>Purpose:</b>	Green Bay Metropolitan Sewerage District's (GBMSD) ambient monitoring program collects water quality data at several stations in the AOC. However, no information is collected on aesthetic parameters including "floating or submerged debris, oil, scum" or "materials producing color, odor, taste, or unsightliness" detailed in the delisting target. Decisions about the aesthetic quality of water are also subjective in nature and involve personal interpretation of what is an "unacceptable level" or an "objectionable" amount that would interfere with public rights or impair use.
<b>Objective:</b>	This project will develop a monitoring program that will use local residents to monitor aesthetics in the Lower Green Bay and Fox River Area of Concern (AOC). The primary goal of the project is to gain input for evaluation of the Degraded Aesthetics beneficial use impairment (BUI) in this AOC. Benefits of this approach include expanding public participation in AOC activities, generating needed data at minimal cost, and incorporating public perceptions in evaluation of this BUI.
<b>Comments:</b>	Original grant was awarded in 2011, but this project is ongoing. We intend to apply for AOC capacity grant funding each year to continue the monitoring project as long as it is needed. The delisting target is 5 years of acceptable aesthetics results. - LTE reporting done under this project - funded through 2014
<b>Outcome:</b>	Results will be used to evaluate the status of the impairment and to identify improvement opportunities. Quarterly and final reports will be completed as required, and results will be incorporated in annual Remedial Action Plan Updates for this AOC.
<b>Study Design:</b>	Dedicated citizen volunteers conduct detailed aesthetics surveys at specific monitoring sites (public access points) within the AOC. Surveys are conducted from April through October, at least twice a year (during 2 seasons). There are also plans to hire a student to go to monitoring sites and use a shortened survey to gain opinions from a wider public.

### QA Measures:

### People

Name	Role	Status	Start Date	End Date	Organization	Comments
AKINKUEHINMI, OLUKAYODE D	TEAM_MEMBER	COMPLETE	5/24/2011	12/31/2018	Wisconsin DNR

### Project Statuses

Date	Reported By	Status	Comments
9/30/2011	CHRISTINA ANDERSON	Progress: 0-25% Complete	<p>In the first quarter we spent \$1,927.61 out of the budgeted \$4,026 for the year.</p> <ul style="list-style-type: none"> <li>•Purchased almost all of the 10 equipment kits- \$1,441.83</li> <li>•Time- 24 hours Christina's time coded to project - \$408</li> <li>•Travel to Green Bay on 9/28 for training- DOA vehicle - \$29</li> <li>•Pizza and refreshments for training – \$48.78</li> </ul> <p>The project has moved forward as planned. Accomplishments made in the first quarter were:</p> <ul style="list-style-type: none"> <li>•Met with advisory team to create methods/datasheet/stations.</li> <li>•Finalized selected stations, methods and datasheet for pilot project</li> <li>•Trained 3 volunteers for pilot project</li> <li>•Completed first version of QAPP</li> </ul> <p>Few surprises have occurred this quarter. Minor program and budgetary adjustments were made as the program evolved.</p> <ul style="list-style-type: none"> <li>•Created unique monitoring rotation to ensure multiple volunteers visit each station for best representation of the station</li> <li>•Added digital cameras to the budget for volunteers to get a better idea of volunteers perception</li> </ul>

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

12/16/2011	CHRISTINA ANDERSON	Progress: 25-50% Complete	<p>In the second quarter we spent \$250 out of the remaining \$2,098.39 budgeted for the year.</p> <ul style="list-style-type: none"> <li>•Time- 13 hours Christina's time coded to project - \$221</li> <li>•Travel to Green Bay on 11/10 for wrap-up meeting- DOA vehicle - \$29</li> </ul> <p>The project has moved forward as planned. Accomplishments made in the second quarter were:</p> <ul style="list-style-type: none"> <li>•Pilot project launched. All trained volunteers and a couple from CAC completed their surveys.</li> <li>•Made revisions to the QAPP and datasheet after reviewing pilot project process and communicating with Social Scientist, Jordan Petchenik.</li> </ul> <p>Few surprises have occurred this quarter. Minor program adjustments were made after reviewing pilot project member's feedback.</p> <ul style="list-style-type: none"> <li>•Shift to wider distributed survey versus relying on dedicated volunteers only</li> <li>•Use CAC and pilot project members group connections to spread the word about Aesthetics and AOC related activities.</li> </ul>
3/31/2012	CHRISTINA ANDERSON	Progress: 50-75% Complete	<p>In the third quarter, no money was spent out of budget. Used time completing the final version of the QAPP and preparing for 2012 field season.</p>
7/2/2012	LAUREL LAST	Complete	<p>In the fourth quarter (4/01-6/30/2012), \$29 was spent for travel (Christina to Green Bay to meet with Laurel, Chad, and CAC), and \$134 was spent on equipment and supplies (remainder of 10 monitoring kits). The budget was updated to include actual expenses through the end of June, and the revised total cost for the project is \$2,341. Activities this last quarter included finalizing the project QAPP, meeting with the CAC to discuss the project and get volunteer recruitment advice, deciding on additional monitoring sites and updating site map, and completing and submitting final 2011 pilot project report.</p>
10/1/2012	LAUREL LAST	Progress: 25-50% Complete	<p>START OF NEW 2012 GRANT. In the first quarter (7/01-9/30/2012), \$93.20 was spent for travel (Christina to Green Bay for volunteer training), \$26.69 was spent on volunteer monitoring kit supplies, \$24.95 was spent on pizza at July 11th volunteer training event, and \$13.50 was spent on postage-paid envelopes for volunteers to return completed surveys. A volunteer coordinator was not hired from the grant, because a suitable candidate was not found until late in the season. No other expenses are anticipated, so the total spent for this grant is now \$158.34. A revised budget was submitted. Activities this quarter included recruiting and training 13 dedicated volunteers, providing ongoing support to volunteers, and collecting surveys as they were completed. Since a volunteer coordinator was not hired for the project, some of the grant activities (e.g., distributing surveys during local events and at established monitoring sites) will not be completed.</p>
1/4/2013	LAUREL LAST	Active	<p>No funds were spent during the quarter 10/01-12/31/2012. Activities during this quarter included continued support for dedicated volunteers, collection of completed surveys and monitoring kits from all but one volunteer, wrap-up meeting with dedicated volunteers, and set-up and testing of survey data form in SWIMS.</p>

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

3/1/2013	LAUREL LAST	Complete	END OF 2012 GRANT. No additional funds were spent for this grant from 1/01/2013 - 2/28/2013. Total spent was \$158.34. Activities this period included SWIMS form testing, applying for 2013 funding to continue project, and using information from the completed surveys to suggest sites for a proposed river cleanup.
4/12/2013	LAUREL LAST	Active	There are now 2 grants supporting this project. I'll enter the reports separately. An LTE position started 02/11/2013 that supports both this Green Bay AOC project and a similar project in the Milwaukee AOC is being funded by 2012 grant funds. A quarterly report has been uploaded for that project. Summary: 69.5 LTE hours were used from 02/11 to 04/05/2013 to support this (Green Bay AOC) project. Funds were also expended for travel. Work included entering all 2011 and 2012 data sheets into SWIMS and working with project participants to create new and improved methods and datasheets and an explanation for trainers for 2013 field season.
4/12/2013	LAUREL LAST	Active	A new 2013 project grant was awarded 03/01/2013. Original proposal included funding for existing support LTE, but was amended. That LTE support work will again be proposed and funded under a separate grant/scope of work. Amended project proposal has been uploaded to SWIMS. Project budget is \$3,114. From 03/01 to 03/31/2013, a total of \$22.52 has been spent--\$14.07 on postage for postage-paid envelopes for volunteers to return their surveys and \$8.45 for AA batteries for cameras. Activities this month included preparing for field season, providing input on methods and datasheet updates, and recruiting and training volunteers. A scope of work is in progress to hire a student to survey a larger sample of citizens on their opinions about aesthetics in the AOC.
7/11/2013	LAUREL LAST	Active	Aesthetics Monitoring Program 2013 grant budget is \$3,114. No additional funds were spent from this grant during this quarter (04/01 to 06/30/2013), so total so spent far is \$22.52. Note that \$3,000 of the total project budget is set aside for UWEX for salary and supplies for a student surveyor. UWEX will invoice the DNR at the end of the project for the total spent. Activities this quarter included providing ongoing support to 16 dedicated volunteers, collecting and reviewing their completed surveys, creating a short citizen aesthetics survey, and assisting with hiring (through UWEX) and training a UWGB student to conduct citizen surveys. 31 aesthetics surveys were received from dedicated volunteers and reviewed. Student surveyor began collecting citizen surveys at project survey sites. The main issue with the project is not having the time available to update the project QAPP and enter and analyze the data collected so far. The separate 2012 grant for the data support LTE was meant to help with that, but the hours funded were not nearly enough to accomplish the needed tasks, and the LTE left for another position before all of those hours were used. Activities planned for next quarter include providing ongoing support to dedicated volunteers, collecting and reviewing their completed surveys, providing support for student surveyor, and working with new data support LTE (when hired) to begin to enter 2013 survey data in SWIMS, upload 2011-2013 photos to SWIMS, update project QAPP, and analyze and interpret 2012 data to develop a final 2012 report.

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

7/11/2013	LAUREL LAST	Active	<p>Quarterly report for LTE position: Total budget for this grant was \$6,000, to be used to support both the Green Bay and the Milwaukee AOC aesthetics programs. The budget included salary for 240 LTE hours, plus supplies and travel. LTE position ended 05/29, since LTE moved on to another job. 34.5 hours were used from 04/06 to 05/29/2013 to support this (Green Bay AOC) project. This brings the total LTE hours for this project to 104, and the total for both Milwaukee and Green Bay AOC to 191. Work this quarter included compiling a summary spreadsheet of 2011 and 2012 data sheets entered into SWIMS. The main issue with the project is that the hours budgeted were not nearly enough to accomplish the needed tasks. Assistance is still needed with uploading all 2011 and 2012 photos to SWIMS, updating the project QAPP, and analyzing the 2012 data to produce a 2012 final report. Remaining budgeted hours (both Milwaukee and Green Bay) under this 2012 grant would be 49. It is likely that a new LTE will be hired to continue to support the 2 aesthetics projects, and that a new grant will be awarded to pay this LTE using 2013 AOC support grant funds.</p>
-----------	-------------	--------	--

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

10/15/2013	LAUREL LAST	Active	<p>Quarterly report for 2013 Aesthetics Monitoring Program grant, July-September 2013: Project Budget: The project budget was decreased from \$3,114 to \$3,057 and the updated Scope of Work with budget was uploaded to SWIMS. The \$57 reduction was made to the monitoring kit supplies budget in order to increase the funding available for another AOC support grant project (AOCOn the Move). Expenses this quarter included approximately \$2,000 for the student surveyors salary (plus indirect costs) and supplies spent by UW-Extension. UWEX will invoice the DNR at the end of the project (student surveyor part) for the total spent. A separate 2013 grant for a data support LTE has been approved and the new LTE was hired September 23rd. The expenses and activities for the LTE will be submitted in a separate quarterly report.</p> <p>Activities Completed This Quarter: Activities this quarter included providing ongoing support to 16 dedicated volunteers, collecting and reviewing their completed surveys, and assisting the UWGB student who is conducting citizen surveys. During this quarter, 23 aesthetics surveys were received from dedicated volunteers and reviewed, for a total of 54 so far. The student surveyor visited the same 11 monitoring sites (parks and boat launches) that the dedicated volunteers are monitoring and intercepted park/launch visitors to administer a short survey. At the end of this quarter, he has collected and entered approximately 150 of these short surveys into the SWIMS database.</p> <p>Problems/Issues: One problem encountered this quarter (and last) is that some of the dedicated volunteers have been too busy to monitor. Of the 16 volunteers who signed up, only nine have completed surveys, so some of the sites will not meet the goal of having data from at least three volunteers for at least two seasons. Also, the student surveyor has been having more difficulty collecting surveys since Labor Day, because the number of park/launch users has dropped and many of the users have already been contacted to complete a survey. Since the number of completed surveys per hour of effort is now low, and our student is attending classes again and finding it difficult to visit the parks/launches with consistency, we will probably end this part of the project sooner than planned (before the end of October). In addition, there is still the issue of not having the time available to update the project QAPP and enter and analyze the data collected so far. The new LTE hired September 23rd will help with this issue.</p> <p>Activities Next Quarter: Activities planned for next quarter include providing ongoing support to dedicated volunteers, collecting and reviewing their completed surveys, providing support for student surveyor, and working with new data support LTE to begin to enter 2013 survey data in SWIMS, upload 2011-2013 photos to SWIMS, update project QAPP, and analyze and interpret 2012 and 2013 data. Rather than complete a separate 2012 final report, we may combine the 2012 and 2013 data into a single report. The student surveyor will complete work on the short citizen surveys in October.</p>
------------	-------------	--------	---

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

10/15/2013	LAUREL LAST	Active	<p>Quarterly report for 2013 Aesthetics Monitoring Program LTE grant, July-September 2013: Project Budget: A separate 2013 grant for a data support LTE has been approved with a total budget of \$10,760. This includes funding for 480 LTE hours plus supplies and travel. Approximately 250 of those LTE hours will be used for this project. Activities Completed This Quarter: The new LTE was hired September 23rd. He spent 10 hours learning about the project and his assigned tasks. Problems/Issues: No problems so far. Activities Next Quarter: Activities planned for next quarter include entering 2013 survey data in SWIMS, uploading 2011-2013 photos to SWIMS, and beginning work on data analysis for the report due in February.</p>
1/10/2014	LAUREL LAST	Active	<p>Quarterly report for 2013 Aesthetics Monitoring Program grant, October-December 2013: Project Budget: As stated in the last report, the project budget has been decreased from \$3,114 to \$3,057. \$3,000 of the total project budget is for UWEX for salary and supplies for a student surveyor. Final project expenses for the UWEX portion of the grant totaled \$1,245.96, including \$1,005.90 for the student surveyor's salary (plus indirect costs) and \$240.06 for mobile hotspot rental (so student could enter survey responses directly into SWIMS). (Obviously, the \$2,000 estimate for student salary in the last report was off by quite a bit.) The expenses and activities for the data support LTE are approved under a different grant and will be submitted in a separate quarterly report. Activities Completed This Quarter: Activities this quarter for the AOC Coordinator included providing ongoing support to 16 dedicated volunteers, collecting and reviewing their completed surveys, holding an end-of-season meeting with the volunteers to get their feedback on the program, collecting volunteers' monitoring equipment, assisting the UWGB student conducting citizen surveys, and working with the data support LTE to begin analysis of the 2011-2013 survey data. During this quarter, 18 aesthetics surveys were received from dedicated volunteers and reviewed, for a total of 72. The student surveyor visited the same 11 monitoring sites (parks and boat launches) that the dedicated volunteers are monitoring and intercepted park/launch visitors to administer a short citizen survey. He completed the citizen surveys in early October, and collected and entered a total of 118 of these short surveys into the SWIMS database. More details can be found in the UWEX final report which has been uploaded to SWIMS. Problems/Issues: As reported earlier, one problem encountered this year is that some of the dedicated volunteers have been too busy to monitor, and fewer surveys were completed than were originally planned. Thus, we have fewer surveys to include in our analysis of the 2011-2013 data than we had hoped. Also, the student surveyor had more difficulty collecting surveys after Labor Day, because the number of park/launch users dropped and many of the users had already been contacted to complete a survey. Since the number of completed surveys per hour of effort was low, and the student was attending classes again and finding it difficult to visit the parks/launches with consistency, we decided to end this part of the project in early October. Activities Next Quarter: Activities planned for the AOC Coordinator for next quarter include collecting remaining monitoring kits from the volunteers, preparing grant application for 2014 AOC support funding, and preparing for 2014 field season, including recruiting and training volunteers. She also plans to work with the data support LTE on the analysis of the 2011, 2012, and 2013 survey data and the summary report due in February. Activities may also include project QAPP review and updates.</p>

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

1/10/2014	LAUREL LAST	Active	<p>Quarterly report for 2013 Aesthetics Monitoring Program LTE grant, October-December 2013: Project Budget: A separate 2013 grant for a data support LTE has been approved with a total budget of \$10,760. This includes funding for 480 LTE hours plus supplies and travel. Approximately 250 of those LTE hours will be used for this project. 116.5 of those hours were expended this quarter, for a total of 126.5 hours so far.</p> <p>Activities Completed This Quarter: During this quarter, the LTE completed final data proofing of all 2011, 2012, and 2013 Lower Green Bay and Fox River AOC aesthetics monitoring surveys in the SWIMS database. He completed data entry in the SWIMS database for all 2013 Lower Green Bay and Fox River AOC aesthetics monitoring surveys. He uploaded all 2012 volunteers' photos to SWIMS. He assisted with resolving data quality issues and modifying survey ranking methodology. And, he summarized data and began analysis for 2011, 2012, and 2013 Lower Green Bay and Fox River AOC aesthetics monitoring surveys. Problems/Issues: No problems to report. Activities Next Quarter: Activities planned for next quarter include analysis of the 2011, 2012, and 2013 survey data and assisting with the summary report due in February. Activities may also include uploading remaining (2011 and 2013) volunteers' photos to SWIMS and assisting with project QAPP review and updates.</p>
4/4/2014	LAUREL LAST	Active	<p>Quarterly report for 2013 and 2014 Aesthetics Monitoring Program grants, January-March 2014: Project Budget: No additional funds were spent this quarter from the 2013 grant. Out of a total 2013 project budget of \$3,057, only \$1,268.48 was spent, leaving \$1,788.52 at the end of the grant period (February 28th). These funds went back into the "pot" for 2014 AOC monitoring and support grants. The new 2014 grant for this project, which began in March, has a total budget of \$150 for aesthetics volunteer supplies. Expenses during March included \$99.29 for supplies, including a digital camera, SD memory card, battery tester (for AA batteries for cameras), and knee-high nylons for filtering water. The expenses and activities for the data support LTE are approved under a different grant and will be submitted in a separate quarterly report. Activities Completed This Quarter: Activities this quarter for the AOC Coordinator included collecting remaining monitoring kits from the 2013 volunteers, preparing the grant application for 2014 AOC support funding, and preparing for the 2014 field season, including planning for a 2014 kick-off/training meeting on April 1st. She also worked with the data support LTE on the analysis of the 2011, 2012, and 2013 survey data and preparation of the project summary report, which was finalized in March. Problems/Issues: No problems to report this quarter. Activities Next Quarter: Activities planned for the AOC Coordinator for next quarter include recruiting, training, and providing support for volunteers. As in 2013, she will review all survey forms as they come in and contact the volunteers for clarification, as needed. Activities may also include project QAPP review and updates, if time allows.</p>

**Wisconsin Department of Natural Resources  
SWIMS Project Summary**

4/4/2014	LAUREL LAST	Active	Quarterly report for 2013 Aesthetics Monitoring Program LTE grant, January-March 2014: Project Budget: The 2013 grant for a data support LTE includes funding for 480 LTE hours plus supplies and travel. Approximately 250 of those LTE hours will be used for this project. This quarter, 55.5 hours were expended, for a total of 182 hours so far. Activities Completed This Quarter: During this quarter, the LTE finalized data entry and analysis for the 2011-2013 aesthetics surveys, summarized and constructed figures and tables for the project summary report, and drafted and finalized the project summary report for distribution and uploading into SWIMS. Problems/Issues: No problems to report. Activities Next Quarter: Activities for next quarter may also include uploading remaining (2011 and 2013) volunteers' photos to SWIMS and assisting with project QAPP review and updates.
7/7/2014	LAUREL LAST	Active	Quarterly report for 2014 Aesthetics Monitoring Program grant, April-June 2014: Project Budget: No additional funds were spent this quarter. Out of a total budget of \$150, \$99.29 has been spent so far. Activities Completed This Quarter: Activities this quarter for the AOC Coordinator included conducting a 2014 kick-off/training meeting on April 1st. She also recruited and provided support for volunteers, and reviewed survey forms as they came in, contacting the volunteers for clarification, as needed. This quarter, she received eight completed survey forms from four volunteers. Eight volunteers have signed up to monitor sites this year, and they are not necessarily submitting their forms as soon as they complete them. Problems/Issues: The main problem this quarter is the lack of volunteers. At this point, only two of the sites will meet the goal of having data from at least three volunteers. Activities Next Quarter: Activities planned for the AOC Coordinator for next quarter include recruiting, training, and providing support for volunteers, and tracking and reviewing survey forms as they come in. Depending on when the new data support LTE is hired, she may work with him or her to begin to enter 2014 survey data into SWIMS. Activities may also include project QAPP review and updates, if time allows.
7/7/2014	LAUREL LAST	Active	Quarterly report for 2013 and 2014 Aesthetics Monitoring Program LTE grants, April-June 2014: Project Budget: The 2013 grant for a data support LTE included funding for 480 LTE hours plus supplies and travel, with approximately 250 of those LTE hours to be used for this project. This quarter, 19.5 hours were expended, for a total of 201.5 hours total. All remaining funds were returned to the general "pot" to be used for 2014 monitoring and support grants. A new grant for 2014 has been approved for \$10,760. Again, this includes funding for 480 LTE hours plus supplies and travel, with a portion of this total set aside for this project. No funds were expended this quarter. Activities Completed This Quarter: During this quarter, the LTE uploaded remaining (2011 and 2013) volunteers' photos to SWIMS. Problems/Issues: No problems to report. Activities Next Quarter: The current plan is to hire a new data support LTE in the fall. Depending on when the new LTE is hired, he or she may begin to enter 2014 survey data into SWIMS during the next quarter.
1/12/2015	EMILY PUNKE	Active	Update for 2014 Aesthetics Monitoring Program, July-January 2014. No funds spent during this time period. \$50.71 left of \$150 total budget as reported by Laurel Last and Megan O'Shea.

## Wisconsin Department of Natural Resources SWIMS Project Summary

1/12/2015	EMILY PUNKE	Active	Update for 2013 and 2014 Aesthetics Monitoring Program LTE grants, July-January 2014. No funds spend during this time period as reported by Laurel Last and Megan O'Shea. 2014 GB monitoring reports not yet entered, Laurel to work with Megan on needs to move forward with the project.
8/21/2015	MEGAN OSHEA	Complete	During the past year, some changes have been made to the monitoring protocol, and a new data sheet was developed. The project QAPP was also revised earlier this year. A decision was made last year to not put the project on hold, which was done in Milwaukee so that the protocols could be re-evaluated. Thus, there was not a major push to get people out into the field to do monitoring during the summer and fall because it was likely that there would be some changes. The project was continued in 2015, but that project is now being tracked in the Aesthetics Monitoring Coord. LTE for Lower Fox River Green Bay project.
10/23/2017	SAMUEL WETTACH	Progress: 50-75% Complete	Continue advertising the program with area businesses, schools, and organizations, post about the program on FWWA's blog and Facebook. Sent out mass email about program to previous and potential volunteers. Handed out Aesthetic Monitoring program sheets at the July 20th Green Bay Bullfrogs baseball game in Green Bay. Participated in the FWWA staff Aesthetics Monitoring Day Trip on July 27th. Coordinated Aesthetics Monitoring volunteers are part of St. Norbert's college into the Streets program on August 25th.
1/8/2018	BRIANNA KUPSKY	Complete	END OF 2017 GRANT. Received final report from FWWA October 17, 2017. Continued advertising program on FWWA blog, facebook, AOC Lakesider Newsletter. Edited and sent photos, scanned and entered data sheets. Prepared final report and invoice. Planned to continue project in 2018, prepared a grant proposal for submittal to EPA. \$1301.51 spent this quarter. Only one station received the required 30 independent observations needed to tally scores as of end of 2017 monitoring period. Made plans to obtain 30 observations at all remaining station as of 2018 monitoring period.
7/15/2018	BRIANNA KUPSKY	Progress: 25-50% Complete	BEGINNING OF 2018 GRANT. Received Q2 progress report - June 30th bus tour was rescheduled to July 14th due to record heat index in Green Bay. Volunteers had been canceling, and the decision was made to move the date to July 14. Tour focused on West Lazarre Ave, Porlier Pier, Leicht Memorial Park, Regatta 220, Perkofski Boat Launch, and Fox Point Boat Launch stations. All survey forms were scanned and submitted to Brie Kupsky via email. The SOW was finalized, continued planning/advertising for future bus tours conducted, and document maintenance was completed during this period.
11/7/2018	BRIANNA KUPSKY	Complete	2018 Project completed. Received Q3 report, final report, final invoice on 10/23/2018. Will tally scores internally.

### Project Status Detail

## Wisconsin Department of Natural Resources SWIMS Project Summary

### Answer Set: 2018 Q3

Question	Answer
1. Reporting Timeframe (Q1) (Q2) (Q3) (Q4):	
2. Amount expended this reporting period:	
3. Subcontracts or subgrants awarded this reporting period:	
4. QAPP (Project Plan) status:	
5. Local services and/or products purchased this reporting period:	
6. Number of jobs created this reporting period:	
7. Work accomplished this reporting period:	
8. Work goals for coming reporting period:	
1. Reporting Timeframe Month/Year to Month/Year (Oct-Mar or Apr-Sept):	
2. Quality Documentation status (respond NA if not required):	
3. Describe work performed during this reporting period relating to the activities from the grant workplan (Previous 6 months):	
4. GLRI Action Plan metric(s) accomplished and numerical progress during this reporting period:	
5. GLRI Action Plan metric(s) accomplished and numerical progress since project start (total complete to date):	
6. Percentage (estimate) of project work completed during this reporting period:	
7. Percentage (estimate) of project work completed since the project start (total complete to date):	
8. Is project work on schedule? If no, please explain.	
9. If a problem was encountered, describe the problem and action(s) taken to correct it.	
10. What work is projected during the next reporting period? (Next 6 months):	
11. Will the project take longer than the approved project period? If so, have you requested an extension in writing to the grant coordinator?	
12. Amount expended this reporting period (can be approximate) If no amount expended, explain why.	
13. Is project invoicing/expenditures up to date? If invoicing is more than 3 months overdue, explain why.	
14. Were any significant changes (>10% of the total project amount) made to the project budget? If so, have you notified the grant coordinator in writing?	

## Wisconsin Department of Natural Resources SWIMS Project Summary

### Answer Set: 2018 Q2

Question	Answer
1. Reporting Timeframe (Q1) (Q2) (Q3) (Q4):	
2. Amount expended this reporting period:	
3. Subcontracts or subgrants awarded this reporting period:	
4. QAPP (Project Plan) status:	
5. Local services and/or products purchased this reporting period:	
6. Number of jobs created this reporting period:	
7. Work accomplished this reporting period:	
8. Work goals for coming reporting period:	
1. Reporting Timeframe Month/Year to Month/Year (Oct-Mar or Apr-Sept):	
2. Quality Documentation status (respond NA if not required):	
3. Describe work performed during this reporting period relating to the activities from the grant workplan (Previous 6 months):	
4. GLRI Action Plan metric(s) accomplished and numerical progress during this reporting period:	
5. GLRI Action Plan metric(s) accomplished and numerical progress since project start (total complete to date):	
6. Percentage (estimate) of project work completed during this reporting period:	
7. Percentage (estimate) of project work completed since the project start (total complete to date):	
8. Is project work on schedule? If no, please explain.	
9. If a problem was encountered, describe the problem and action(s) taken to correct it.	
10. What work is projected during the next reporting period? (Next 6 months):	
11. Will the project take longer than the approved project period? If so, have you requested an extension in writing to the grant coordinator?	
12. Amount expended this reporting period (can be approximate) If no amount expended, explain why.	
13. Is project invoicing/expenditures up to date? If invoicing is more than 3 months overdue, explain why.	
14. Were any significant changes (>10% of the total project amount) made to the project budget? If so, have you notified the grant coordinator in writing?

## Wisconsin Department of Natural Resources SWIMS Project Summary

2018 Scanned Datasheets				
Aesthetics Monitoring - Green Bay QAPP	Final QAPP - no signatures	Christina Anderson	4/17/2012	WORD format
Aesthetics Monitoring Methods 2012	Question by question instruction to Green Bay Aesthetics Monitoring (Follow along with datasheet)	Anderson, Christina	6/1/2012	
Aesthetics Monitoring Program Volunteer Coordinator and Aesthetics Monitoring Program Data Support LTE 1st quarterly report	Quarterly report (02/11-04/05/2013) for Aesthetics Monitoring Program Volunteer Coordinator and Aesthetics Monitoring Program Data Support LTE (support for Milwaukee AOC and Green Bay/Fox AOC)	Matt Steiger	4/12/2013	
Aesthetics QAPP Appendix A Pilot Station Map	Locations in Green Bay area where aesthetics monitoring will be conducted	Christina Anderson	4/17/2012	PDF Map
Aesthetics QAPP Appendix B Potential Station Map	Green Bay potential monitoring stations	Christina Anderson	4/17/2012	PDF Map
Aesthetics QAPP Appendix C1 Datasheet	General Data collection form for volunteers - routine	Christina Anderson	4/17/2012	Excel form
Aesthetics QAPP Appendix C2 Event Datasheet	Data sheet for events - includes demographic information	Christina Anderson	4/17/2012	Excel Form
Aesthetics QAPP Appendix D Methods	Method write up for training volunteers	Christina Anderson	4/17/2012	WORD format
CAC support proposal for Citizen Monitoring of Degraded Aesthetics		Erin Hanson	3/30/2011	
Citizen Monitoring of Degraded Aesthetics QAPP - approved	Signed QAPP - Final - no EPA signatures	Christina Anderson	4/24/2012	Original draft
Citizen Monitoring of Degraded Aesthetics QAPP FINAL	PDF Approved QAPP for Green Bay including EPA signatures	Christina Anderson	4/25/2012	
Citizen Monitoring of Degraded Aesthetics Revised Budget 09182012	Revised budget for Green Bay AOC Aesthetics Citizen Monitoring Program 2012 capacity grant (July 2012-February 2013).	Laurel Last	9/18/2012	
Event Cover Photo August				
Event Cover Photo July				
Event Cover Photo October				
Final QAPP	This is the QAPP that was approved in 2015.			
Final Report (through Dec 2013) for UWEX portion of aesthetics grant	Final Report (through Dec 2013) for UWEX portion (student conducting citizen surveys) of Green Bay and Fox River aesthetics monitoring project grant	Chad Cook	1/8/2014	

## Wisconsin Department of Natural Resources SWIMS Project Summary

Final report for 2013 citizen aesthetics surveys	Final report for 2013 citizen aesthetics surveys conducted in Green Bay & Fox River AOC through UWEX (student surveyor)	Laurel Last	2/26/2014	
Fox-Wolf Watershed Alliance 2017 SOW	Fox-Wolf Watershed Alliance 2017 SOW			
Fox-Wolf Watershed Alliance Lower Green Bay Fox River Aesthetics Volunteer Monitoring - Scope of Work	Fox-Wolf Watershed Alliance (FWWA) Scope of Work for Lower Green Bay Fox River Volunteer Aesthetics Monitoring.	Kelly Reyer	6/26/2017	
Fox-Wolf Watershed Alliance Quarterly Report 10.1.16 to 3.14.17	Fox-Wolf Watershed Alliance Quarterly Report 10.1.16 to 3.14.17			
Fox-Wolf Watershed Alliance Quarterly Report 10.17.17	Fox-Wolf Watershed Alliance Quarterly Report 10.17.17			
Fox-Wolf Watershed Alliance Quarterly Report 10.28.2016	Fox-Wolf Watershed Alliance Quarterly Report 10.28.2016			
Fox-Wolf Watershed Alliance Quarterly Report 7.11.17	Fox-Wolf Watershed Alliance Quarterly Report 7.11.17			
Green Bay AOC Aesthetic Monitoring Pilot Project Final Report 2012	Final report for the 2011 pilot program to monitor aesthetics in the Lower Green Bay & Fox River Area of Concern	Christina Anderson	7/2/2012	
Green Bay AOC Volunteer Aesthetics Monitoring Datasheet 2013	Green Bay AOC Aesthetics Monitoring Data sheet for 2013 monitoring season	Christina Anderson and Matt Steiger	3/25/2013	
Green Bay AOC Volunteer Aesthetics Monitoring Datasheet Instructions 2013	Question by question instructions to Green Bay AOC Aesthetics Monitoring (Follow along with datasheet) updated for 2013 monitoring season.	Christina Anderson and Matt Steiger	3/25/2013	
Green Bay AOC Volunteer Aesthetics Monitoring Sites Map 2012	Green Bay AOC Volunteer Aesthetics Program Monitoring Sites Map updated for 2012	Laurel Last	6/20/2012	
Green Bay AOC Volunteer Aesthetics Monitoring Sites Map 2013	Green Bay AOC Volunteer Aesthetics Monitoring Project Sites Map updated for 2013	Laurel Last	3/22/2013	
Green Bay AOC Volunteer Monitoring of Degraded Aesthetics Explanation of Datasheet for Trainers	Green Bay AOC Volunteer Monitoring of Degraded Aesthetics explanation of datasheet for trainers	Matt Steiger	3/25/2013	
Green Bay data tracking	This is the spreadsheet that has all data (electronic and paper forms) entered through July 2017. Only data from 2015 onward should be used, since the form underwent considerable scoring and format changes in 2015.			

## Wisconsin Department of Natural Resources SWIMS Project Summary

LGBFR AOC Aesthetics Locations	LGBFR AOC Aesthetics Locations			
Lower Green Bay and Fox River AOC Aesthetics Citizen Monitoring Report	2011-2013 summary report for Lower Green Bay and Fox River AOC Aesthetics Citizen Monitoring Project	Adam Nickel and Laurel Last	2/27/2014	
Revised Budget		Erin Hanson	9/1/2011	
Revised budget 06202012	Revised budget (06/20/2012) for 2011 grant for Citizen Monitoring of Degraded Aesthetics project	Laurel Last	6/20/2012	
Scope of Work for Aesthetics Monitoring Project Coordination LTE for Milwaukee AOC and Green Bay/Fox AOC	Proposal and Scope of Work for Aesthetics Monitoring Project Coordination LTE to support the Milwaukee Estuary AOC and the Fox River/Lower Green Bay AOC using 2012 AOC capacity grant funds.	Vic Pappas	1/29/2013	
Summary report for Aesthetics Monitoring Program Data Support LTE	Summary report for Aesthetics Monitoring Program Data Support LTE. Includes details about datasheet review and revisions for Green Bay and Milwaukee AOC Aesthetics Monitoring Programs in February - May 2013.	Matt Steiger	5/29/2013	
Updated 2013 Scope of Work for Lower Green Bay and Fox River AOC Citizen Monitoring of Degraded Aesthetics project	Updated 2013 Scope of Work for Lower Green Bay and Fox River AOC Citizen Monitoring of Degraded Aesthetics project. Reduced budget for monitoring kit supplies by \$57.	Laurel Last	8/1/2013	
Updated 2013 grant proposal for Lower Green Bay & Fox River AOC Citizen Monitoring of Degraded Aesthetics	Updated 2013 grant proposal for Lower Green Bay & Fox River AOC Citizen Monitoring of Degraded Aesthetics Project	Laurel Last	3/21/2013
