

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: LPL-1523-13

Name: DUMMY LAKE MANAGEMENT DISTRICT: Big & Little Dummy Lakes APM Plan Update Project

Type: Lakes Grant

Subtype: Large Scale Lake Planning

Status: COMPLETE

Start Date: 4/1/2013

End Date: 12/31/2015

Purpose: Dummy Lakes Management District is sponsoring a project to develop an aquatic plant management (APM) plan including public participation / meetings.

The final deliverables include agendas and minutes for planning meetings, an APM plan that includes methodologies, results, and management alternatives discussion with an implementation plan.

Specific project tasks include: 1) Shoreline inventory and restoration planning; 2) Watershed land use assessment & loadings; 3) Identify runoff patterns & delineate environmentally sensitive areas in the watershed; 4) Aquatic Plant survey; 5) Watercraft inspection; 6) WILMS lake condition response modeling; 7) Review of institutional programs & regulations; 8) APM plan development.

Special Conditions: 1) CLMN efforts should not be duplicated, and these data shall be included in the trends analysis and final reporting; 2) WDNR\2019s Aquatic Plant Management in Wisconsin guidance shall be followed for point-intercept survey monitoring and aquatic plant management plan development. Two sets of aquatic plant vouchers shall be collected, one set for DNR distribution to Dr. Freckmann and one set for the lake group or village. The NOR Native Plant Protection Strategy shall be integrated into the APM plan; 3) Sponsor shall contact DNR immediately if a new AIS is found; 4) AIS monitoring and watercraft inspection personnel shall be trained and follow DNR approved protocols.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator.

Title	Description	Author	Published	Comments
Dummy Lake's Approval Letter	Dummy Lake's Aquatic Plant Management Plan Approval.	Alex Smith	4/20/2016	
Dummy Lake's PI Survey Final Report	This report is a summary of the results from a full lake, point intercept method aquatic macrophyte survey completed in 2013 on Big Dummy Lake and Little Dummy Lake, Barron County Wisconsin. Big Dummy and Little Dummy Lakes are connected by a short channel.		8/1/2013	
Dummy Lakes Resource Managment Final Report	The Dummy Lakes Management District (DLMD) was formed in 1983 to address resource management concerns on Big Dummy and Little Dummy Lakes (The Lakes). The Management District has been active in a number of lake management activities on The Lakes including aquatic plant management, invasive species monitoring and control, habitat improvements, boat landing monitoring and community education activities. DLMD contracted Flambeau Engineering, LLC to develop an aquatic plant management (APM) Plan update for Dummy Lakes. The Dummy Lakes APM Plan includes a review of available lake information, an aquatic plant survey, water quality evaluation and an evaluation of feasible physical, mechanical, biological and chemical aquatic plant management alternatives if deemed appropriate.	Tiffiney Kleczewski	1/1/2016
