Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: CLMN-WCR

Name: Citizen Lake Monitoring - West Central Region

Type: Citizen Lake Monitoring

Subtype: State, County or Regional Coordination

Status: ACTIVE

Start Date: 2/7/2006

End Date: 12/31/2099

Purpose: The Citizen Lake Monitoring Network, the core of the Wisconsin Lakes Partnership, involves over 1000 citizen volunteers

statewide. The goals are to collect high quality data, to educate and empower volunteers, and to share this data and knowledge. Volunteers measure water clarity, using the Secchi Disk method, as an indicator of water quality. This information is then used to determine the lakes trophic state. Volunteers may also collect chemistry, temperature, and dissolved oxygen data, as well as identify and map plants, watch for the first appearance of Eurasian Water Milfoil near boat landings, or or

alert officials about zebra mussel invasions on Wisconsin lakes.
