

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID:

LPL-682-00

Name:

CITY OF GREEN BAY: Bay Beach Lagoon Water Quality Eval Phase 2

Type:

Lakes Grant

Subtype:

Large Scale Lake Planning

Status:

COMPLETE

Start Date:

4/1/2000

End Date:

6/30/2001

Purpose:

The City of Green Bay proposes to conduct a Phase 2 water quality evaluation on 42 acres of Bay Beach Lagoons. The project will consist of setting water quality goals, alternatives and a cost analysis of feasible improvements. Recommendations will be made based on these findings in the final report.

The DNR will be provided with both a paper copy and an electronic copy of the final report. Information will be disseminated to the public as described in the grant application

Objective:

Comments:

Grantee is CITY OF GREEN BAY

Outcome:

Phase II - Lagoon Water Quality Improvement Evaluation	Foth & Van Dyke was retained by the City of Green Bay to conduct a study of water quality improvement alternative for the Bay Beach Wildlife Sanctuary lagoons. The City received a Lake Management Planning Grant from the Wisconsin Department of Natural Resources (WDNR) which provided funding up to \$10,000 for this project. This evaluation and report focused on evaluation of alternatives to meet specific water quality goals. These goals were developed with WDNR to improve the water quality for the overall health of the water resource and enable a self sustaining warm water fishery to exist in the lagoon.	Foth & Van Dyke	6/1/2001
