

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: AIRR-020-07

Name: STRATTON LAKE PROP OWNERS ASSN: Stratton Lake EWM Control Project

Type: Aquatic Invasives Grant

Subtype: Aquatic Invasives Early Detection and Response

Status: COMPLETE

Start Date: 4/18/2007

End Date: 12/31/2009

Purpose: The Stratton Lake Association proposes to control Eurasian water-milfoil (EWM) in Stratton Lake by implementing control measures during the period 2007 - 2009. The project elements and deliverables are specified in the Stratton Lake Association's Aquatic Invasive Species Control Grant application, dated February 1, 2007, and revised on April 18, 2007. The project includes conducting pre- and post-treatment surveys and mapping the extent of EWM; controlling EWM with aquatic herbicide treatments; and implementing an aquatic invasive species prevention strategy that includes developing an information & education program, and conducting watercraft inspection. Annual progress reports and a final report summarizing the three-year project will be provided to DNR. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!"FFFD brand (partnership details can be found at: <http://www.protectyourwaters.org>). If consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.
