SWIMS Project Summary****General Project Information**

**Project ID:** AEPP63421

**Name:** GREEN LAKE COUNTY: Grand Lake LMP - AIS Dye Study

**Type:** Aquatic Invasives Grant

**Subtype:** Aquatic Invasives Education

**Status:** COMPLETE

**Start Date:** 3/15/2021

**End Date:** 12/31/2021

**Purpose:** Green Lake County is sponsoring a project to complete an AIS dye study on Grand Lake, Green Lake County. This project is the result of a goal in their management plan to determine herbicide residence times in areas containing high density curly leaf pondweed beds. This information is critical to determine if herbicide treatment efficacy would be enough to achieve desired control targets.

Project deliverables include: 1) results of the dye tracking study (determine herbicide residence times for the time period that herbicides would be applied for CLP control); 2); Plant bed mapping; 3) Recommendations for possible future herbicide treatments.

Specific project conditions: WDNR review of the draft results of these studies. DNR lake biologist will be provided electronic and hard copies of data and reports/plans generated as a result of this project.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

**Objective:**

**Comments:** Grantee is GREEN LAKE COUNTY
