

Wisconsin Department of Natural Resources  
SWIMS Project Summary

General Project Information

**Project ID:** RP-195-11

**Name:** COLUMBIA COUNTY: Spring Creek Crk Targeted WQ Monitoring Part #1

**Type:** River Grant

**Subtype:** River Planning Grant

**Status:** COMPLETE

**Start Date:** 7/1/2010

**End Date:** 12/31/2012

**Purpose:** Review of Existing Information, Develop Model, Planning Meetings, Preliminary Watershed Scope/Analysis and Reporting

Data review that will be carried out by UWSP staff and supervisors. This will include pulling together existing data, both historical and newly gathered and create a foundation for that information to work into the bigger project. (\$5000)

1) UWSP Supervision and oversight, meetings, set up planning, documentation etc. (\$3000)

2) Columbia County LWCD technical staff resources to set up, coordinate and get project moving along (\$5000)

3) Develop rating curve, gathering in the field data to use for future calculation and coordination of water quality data (\$5000)

4) Misc work, and transportation(\$1350)

This component will largely consist of doing background work on existing data, the set up of the 5 sampling locations that will be used throughout project, and the ongoing in field data gathering related to the development of a rating curve that will be used in coordination with component #2 water quality data. A separate project report on accomplishments will be prepared for this project.

**Objective:**

**Comments:** Grantee is COLUMBIA COUNTY

**Outcome:**

**Study Design:**

**QA Measures:**

## Wisconsin Department of Natural Resources SWIMS Project Summary

Action	Detailed Description	Start Date	End Date	Status
Watershed Mapping or Assessment	Review of Existing Information, Develop Model, Planning Meetings, Preliminary Watershed Scope/Analysis and Reporting Data review that will be carried out by UWSP staff and supervisors. This will include pulling together existing data, both historical and newly gathered and create a foundation for that information to work into the bigger project. (\$5000) 1) UWSP Supervision and oversight, meetings, set up planning, documentation etc. (\$3000) 2) Columbia County LWCD technical staff resources to set up, coordinate and get project moving along (\$5000) 3) Develop rating curve, gathering in the field data to use for future calculation and coordination of water quality data (\$5000) 4) Misc work, and transportation(\$1350) This component will largely consist of doing background work on existing data, the set up of the 5 sampling locations that will be used throughout project, and the ongoing in field data gathering related to the development of a rating curve that will be used in coordination with component #2 water quality data. A separate project report on accomplishments will be prepared for this project.	7/1/2010	12/31/2012	COMPLETE
Informational Meetings	Review of Existing Information, Develop Model, Planning Meetings, Preliminary Watershed Scope/Analysis and Reporting Data review that will be carried out by UWSP staff and supervisors. This will include pulling together existing data, both historical and newly gathered and create a foundation for that information to work into the bigger project. (\$5000) 1) UWSP Supervision and oversight, meetings, set up planning, documentation etc. (\$3000) 2) Columbia County LWCD technical staff resources to set up, coordinate and get project moving along (\$5000) 3) Develop rating curve, gathering in the field data to use for future calculation and coordination of water quality data (\$5000) 4) Misc work, and transportation(\$1350) This component will largely consist of doing background work on existing data, the set up of the 5 sampling locations that will be used throughout project, and the ongoing in field data gathering related to the development of a rating curve that will be used in coordination with component #2 water quality data.
