End Date: 6/24/2011

Purpose: The Citizen Lake Monitoring Network Aquatic Invasive Species (AIS) monitoring workshop speakers provide details on aquatic invasive species identification and life cycles; instructions on how to organize an effective monitoring team; where and when to look for the invasives; as well as what to do if you suspect that you have found an invasive plant or animal. Most workshops will offer hands-on training for invasive species identification. Workshop hosts will offer participants a monitoring kit at no charge (one free kit per lake). Additional kits and supplies helpful in assisting you in collection and identification of the plants and animals may be offered “for sale” at the workshops. These materials are optional, but many volunteer found them useful. For more information on the CLMN program, visit: <http://www.uwsp.edu/cnr/uwexlakes/clmn>.
