

Wisconsin Department of Natural Resources
SWIMS Project Summary

General Project Information

Project ID: AIRR-116-12

Name: CITY OF WAUPACA: Shadow Lake Invasive Species Control

Type: Aquatic Invasives Grant

Subtype: Aquatic Invasives Early Detection and Response

Status: COMPLETE

Start Date: 7/1/2011

End Date: 12/31/2013

Purpose: The Waupaca Inland Lakes District proposes to control Eurasian Water Milfoil (EWM) and Curly-leaf Pondweed (CLP) in Shadow Lake by implementing control measures during the period of 2011-2013. The project elements and deliverables are specified in the Shadow Lake Aquatic Invasive Emergency Response Grant application dated 7/19/11. The project includes conducting pre- and post-treatment monitoring, controlling CLP with aquatic herbicide treatments if determined necessary and hand pulling where applicable.

Annual progress reports and a final report summarizing the project will be provided to DNR. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!" brand. If a consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.

Objective:

Comments: Grantee is CITY OF WAUPACA

Outcome:
