

Wisconsin Department of Natural Resources  
SWIMS Project Summary

General Project Information

**Project ID:** SPL-310-13

**Name:** GREEN LAKE COUNTY: Green Lake County Buffer Assesment

**Type:** Lakes Grant

**Subtype:** Small Scale Lake Planning

**Status:** COMPLETE

**Start Date:** 4/1/2013

**End Date:** 12/31/2013

**Purpose:**

The Green Lake \2013 Land Conservation Department is sponsoring a Small-Scale Planning Grant to inventory vegetative buffer conditions on 6 tributaries of Big Green Lake. Major components of this field work include:

- 1. Inventory current buffer status.
- 2. Identify impaired buffers and areas of bank instability.
- 3. Classify target areas for precision buffers.
- 4. Locate target areas for upland conservation practices.

Sampling stations will be field located with GPS and sampling protocols will follow USDA\_NRCS Stream Visual Assessment Protocols (SVAP).

Project Deliverables

- 1. Meeting with DNR and GLSD to go over results of project and to plan future planning and / or implementation projects.
- 2. Draft Report submitted one month prior to project deadline.
- 3. Final Report will include:
  - a. Resource Inventory Maps which identify high priority areas for precision conservation practices.
  - b. Results of SVAP survey and other field collected data.
  - c. Recommendations on the creation of a buffer ordinance or other courses of action to improve the water quality of streams discharging to Big Green Lake.

Project Timeline

- 1. Draft Report submittal by 11/30/2013
- 2. Final Report will be completed by 12/31/2013. Final report needs DNR approval.

**Objective:**

**Comments:** Grantee is GREEN LAKE COUNTY

**Outcome:**

**Study Design:**
