Public Notice of an Air Pollution Control Permit Application Review

Facility Description

Neenah Foundry Company - Neenah Operations (W2179), located at 2121 Brooks Ave, Neenah, Winnebago County, Wisconsin, FID 471033860, submitted to the Department of Natural Resources (DNR) a permit application, including plans and specifications for renewal of 471033860-P20 for operation of a gray and ductile iron foundry facility; AND modification and operation of the DISA casting line, BMD casting line, and core production processes.

Air pollution control Part 70 source operation permit renewal no. 471033860-P30
Air pollution control construction permit no. 23-BAP-078.

Application Review

DNR has prepared an analysis and made a preliminary determination that the application meets state and federal air pollution control requirements and that the permit may be approved. You can view the permit application, the DNR's analysis, preliminary determination and draft permit, and other materials considered by the department using the Air Permit Search Tool located at https://dnr.wisconsin.gov/topic/AirPermits/Search.html or by contacting Beth Perk at (608) 267-0573 or by e-mail at Beth.Perk@wisconsin.gov.

For questions about the permit application or the DNR's analysis, preliminary determination and draft permit please contact Beth Perk at (608) 267-0573 or by e-mail at Beth.Perk@wisconsin.gov.

The permit application is being reviewed under the Prevention of Significant Deterioration (PSD) Program [ch. NR 405, Wis. Adm. Code] for volatile organic compounds (VOC).

The department has made the determination under ch. NR 150, Wis. Adm. Code, that this type of proposal normally does not have the potential to cause significant adverse environmental or secondary effects.

This is a preliminary determination and does not constitute a final approval from the Air Management Program or any other DNR sections which may also require a review of the project.

Public Comments

Interested persons wishing to submit written comments on the application or DNR's review of it or wishing to request a public hearing should do so within 30 days of publication of this notice. Posting and Public Comment Deadline dates can also be found on "Air permit public notices" web page located at https://apps.dnr.wi.gov/warp_ext/public_notice.aspx. Comments or request for hearing should be sent to Beth Perk at Beth.Perk@wisconsin.gov or to:

Wisconsin Department of Natural Resources, Bureau of Air Management, 101 S. Webster Street, Box 7921, Madison, WI 53707-7921. Attn.: Beth Perk.

If a hearing is requested, the requester shall indicate their interest in the permit and the reasons why a hearing is warranted.

All comments received by the DNR at the public hearing if one is held, and prior to the close of the comment period, will be considered prior to making a final decision regarding the proposed project. After the close of the public comment period, a final decision will be made on whether to issue or deny the air pollution control permit. Information on the public commenting and hearing process is available at http://dnr.wi.gov/topic/AirPermits/Process.html.

Reasonable accommodation, including the provision of informational material in an alternative format, will be provided upon request.

For Part 70 sources, the renewed operation permit will not be issued until after the United States Environmental Protection Agency (US EPA) has an opportunity to review a proposed permit for 45 days. A draft proposed permit has been provided to US EPA on the same date this notice was posted on the Internet. The start date of the US EPA

review period is posted on the Internet at http://dnr.wi.gov/topic/AirPermits/Search.html. If significant comments are received during the 30-day public comment period, EPA requests sequential review, or DNR decides to proceed with sequential review, DNR will post a sequential proposed permit to the website listed above and start US EPA's 45-day review period after the 30-day public comment period. DNR's website will specify the start date of US EPA's 45-day review period. Unless US EPA objects in writing within the 45-day review period, DNR will issue the final operation permit renewal as proposed. Any person may petition US EPA under 40 CFR Part 70.8(d) within 60 days after the expiration of US EPA's 45-day review period to make an objection to the operation permit renewal.

Notice: Any information, including personal or contact information, submitted to the department may be considered a public record. Records may be publicly disclosed either in paper form or electronically and could be searchable on the Internet.
