

Pardeeville Water & Sewer Commission  
Columbia County

January 24, 1977

Spring Lake - Surface Acres = 17.2 Miles, S.D.F. = 1.38, Maximum Depth = 28 feet

A small drainage lake at the base of the terminal moraine in the Village of Pardeeville. The lake is drained by the Fox River and has clear, fertile water. Northern pike and panfish constitute the fishery. Adequate public access is not available; the lake is therefore used only lightly for recreation. Waterfowl make limited use of the area for nesting and resting.

Recommendations

Spring Lake in its entirety should be classified continuous fish and aquatic life.

The above recommendations represent a concurrence of opinion of the stream classification team who are as follows:

Robert Weber - District Engineer  
Jim Congdon - Area Fish Manager  
Tom Bainbridge - District Biologist  
Roger Schlessler - Natural Resources Technician

Respectfully submitted,

  
Thomas Bainbridge  
Stream Classification Coordinator
