

Ashippun
Dodge County

January 20, 1977

Davy Creek - Surface Acres = 2.6 Miles, Miles = 4.3, Gradient = 11.6 feet per mile.

Davy Creek is a tributary to the Rock River. Davy Creek flows northwest of Ashippun and enters a large marshland before joining with the Rock River. This marsh is highly valued as a northern pike spawning ground and should be maintained at its present high quality.

Recommendations

Davy Creek in its entirety should be classified continuous fish and aquatic life.

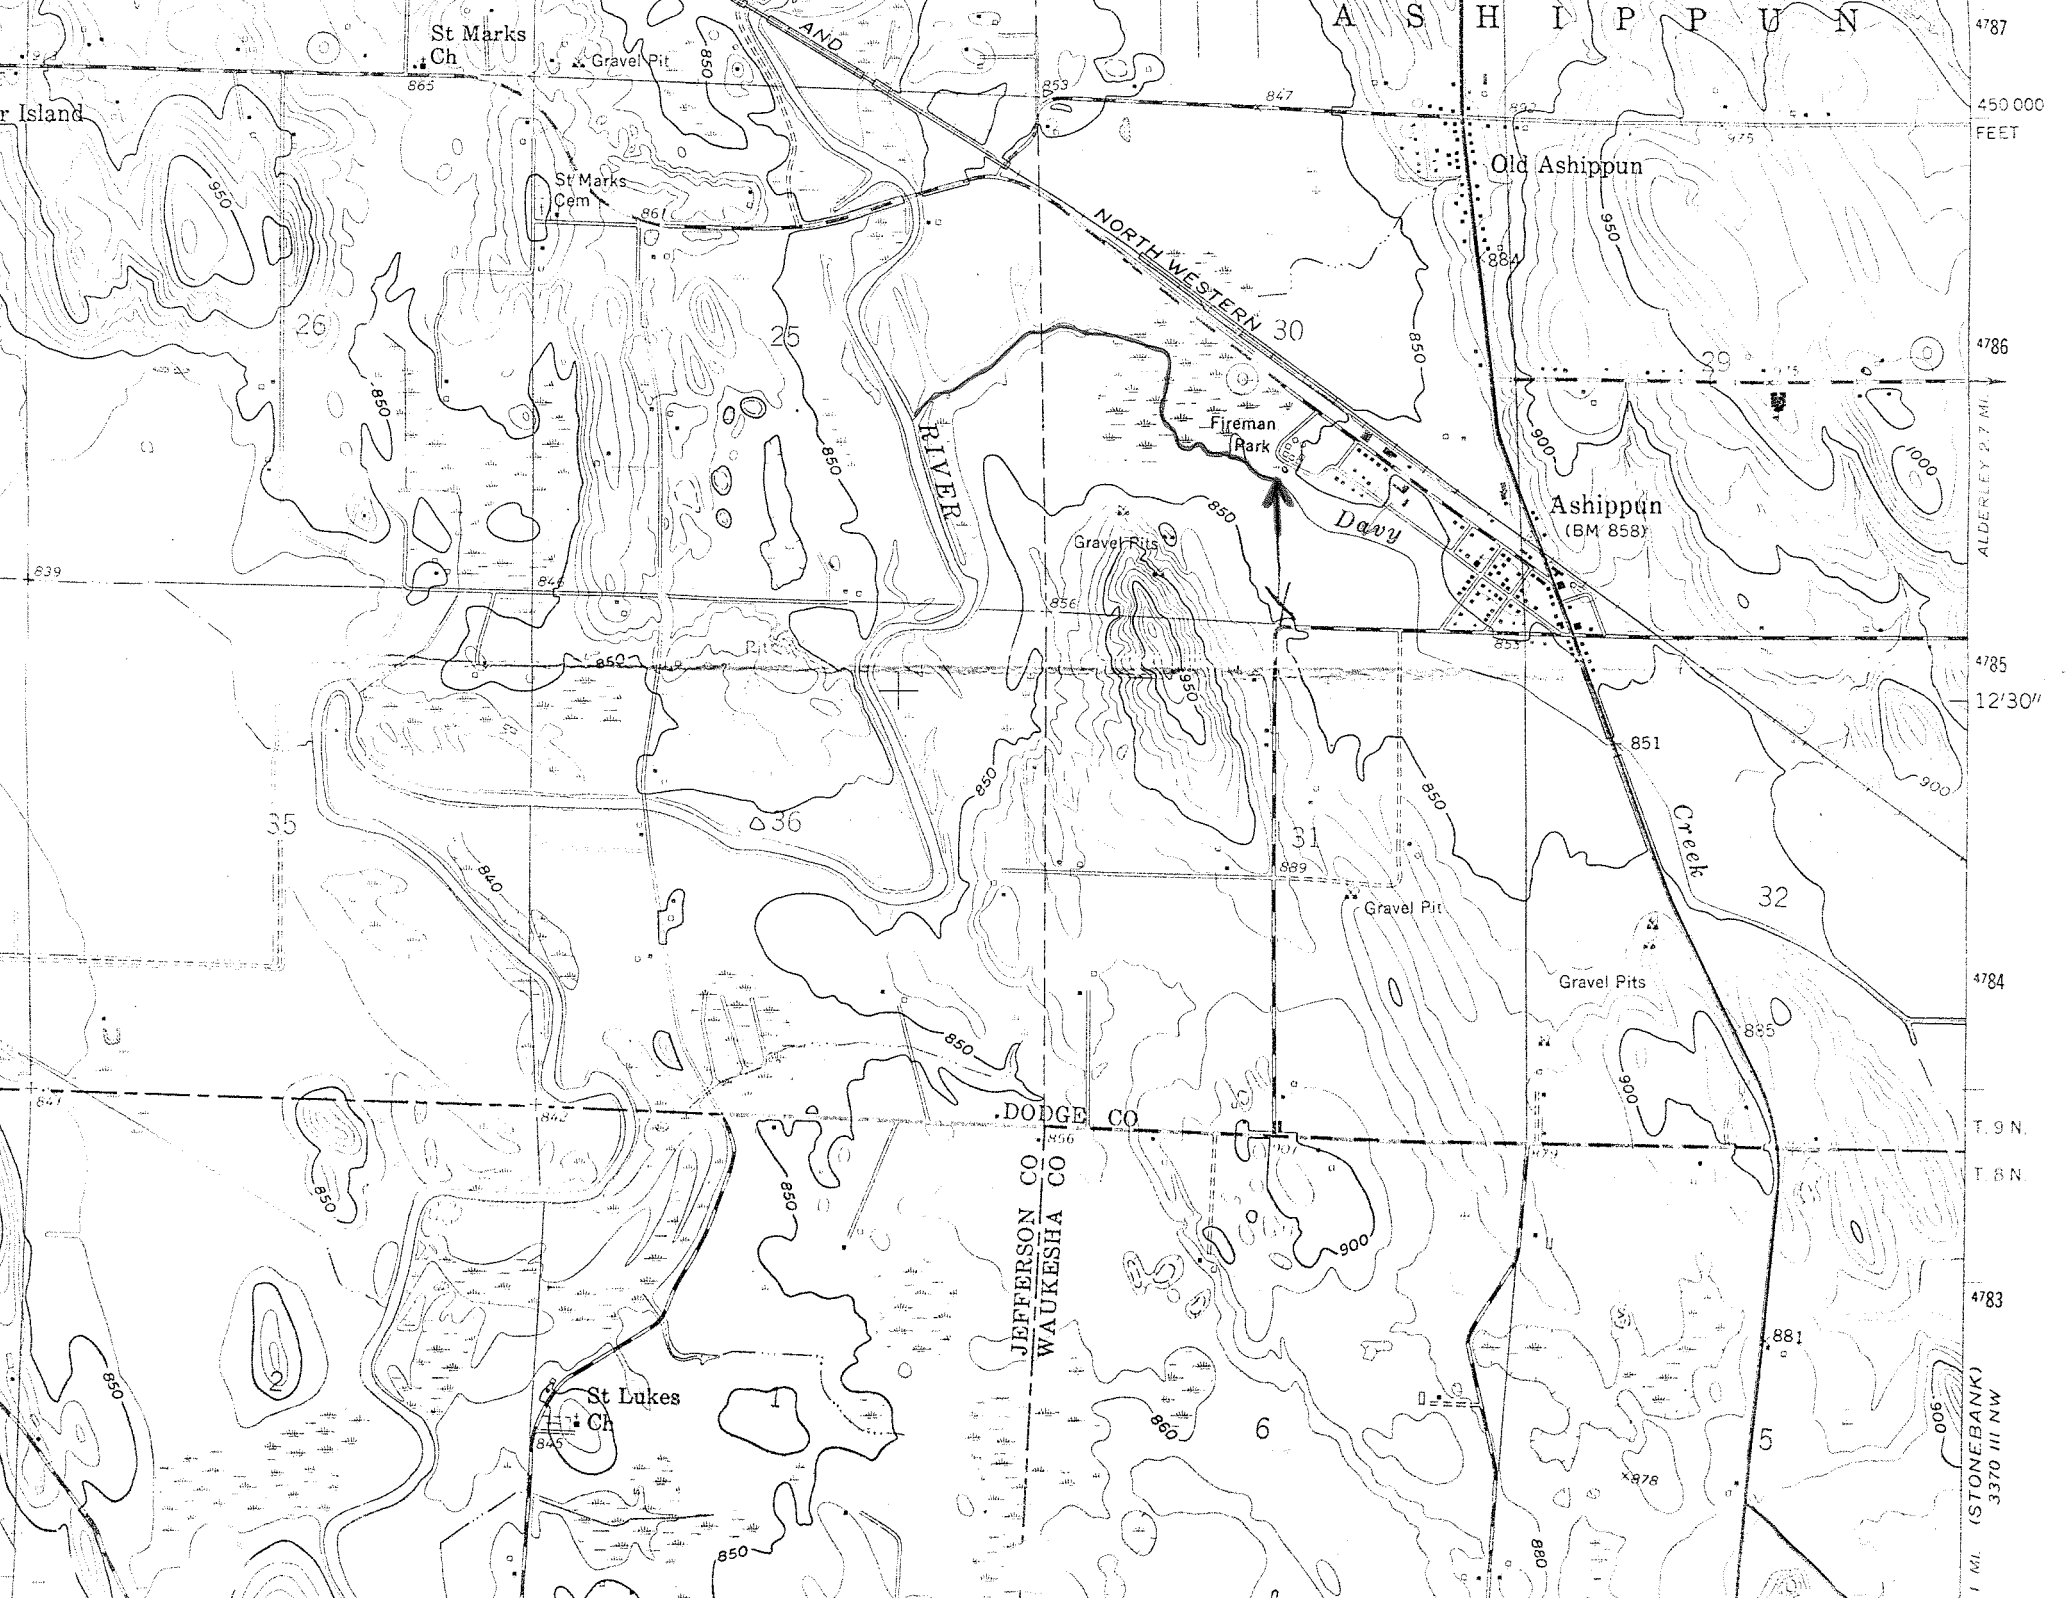

The above recommendations represent a concurrence of opinion of the stream classification team who are as follows:

Robert Weber - District Engineer
Jim Congdon - Area Fish Manager
Tom Bainbridge - District Biologist
Roger Schlessler - Natural Resources Technician

Respectfully submitted,

Thomas Bainbridge
Stream Classification Coordinator
