

September 10, 2015

Ms. Lisa Helmuth, Water Resources Management Specialist
Bureau of Water Quality
Wisconsin Dept. of Natural Resources
P.O. Box 7921
Madison, WI 53707-7921

Dear Ms. Helmuth:

Please find a copy of the draft Eden 2035 Sewer Service Area Plan for the Department's review and considerations for certification as part of the Statewide Water Quality Management Plan. The draft Eden 2035 SSA Plan was approved by the full Commission at its July 31, 2015 quarterly meeting according to our current Water Quality Planning Contract.

Larger display mapping is in production and is absent from this submittal. This additional mapping will be provided for the final version of this plan. Also, this draft document will be uploaded to SWIMMS for availability to other review entities. In addition, this draft document will be posted to our webpage and can be found here: <http://www.ecwrpc.org/programs/community-facilities/ssa/#SSAPlans>

We hope that the Department finds the plan to be complete as well as logical in terms of its final boundary configuration. Our staff and Commission found that the entities involved in the update process were cooperative throughout our planning efforts. The thrust of this plan had more to do with technical information updates than the expansion of the sewer service area boundaries.

If there are any questions regarding this submittal, or if we can provide you additional information to assist in your review, please do not hesitate to contact Joe Huffman at (920) 751-4770 or via e-mail at jhuffman@ecwrpc.org. We look forward to hearing from you on this important regional planning effort.

Sincerely,

Joseph W. Huffman
SSA Planner
