Manawa, WI 54949

Steve & Amy,

Our records show that all construction reimbursement payments have been completed for the Targeted Runoff Management (TRM) Grant that you received to implement an animal restriction easement and animal feedlot relocation along with your new manure storage/roof system. Waupaca County is required to inform you in writing, as part of the TRM grant process, of your obligation to maintain compliance with the applicable state agricultural performance standards and prohibitions that were addressed by the TRM cost-share agreement. These standards and prohibitions are outlined in Subchapter II (NR 151.02-NR 151.09) of Wisconsin Administrative Code NR 151 and pertain to both the original location (parcel) of the animal lot and the relocated location (parcels) of the animal operation. Enclosed you will find a copy of NR 151 Subchapters I & II that pertain specifically to your project as well as a copy of the animal restriction easement recorded on your deed with the Waupaca County Register of Deeds. I encourage you to take the time to read them over carefully.

Also, to further comply with NR 151.07 (Nutrient Management) and Section 10.52 of the Waupaca County Manure Storage Ordinance, Waupaca County and the State of Wisconsin requires that you submit a copy of your Nutrient Management Plan (NRCS 590) to our office by April 1<sup>st</sup> of each year. Copies of your plan will be kept on file for potential review by either DNR or DATCP staff.

If you have any questions regarding this issue or would like a full copy of Wisconsin Administrative Code NR 151, please feel free to call me at 715-258-6482.

Sincerely,

Brian Haase  
County Conservationist
