

Aquatic Invasive Species Monitoring Data Form

Form 3600-532Ai (R 2/14)

| Location Name | WBIC | SWIMS Station ID | County | Date | Start Time | End Time | Total Time (hrs x ppl) | Collector(s) | Contact info | 35X MSW* |
|--------------------|-------|------------------|------------|---------|------------|----------|------------------------|------------------------------|-------------------------------|----------|
| #6 Milwaukee River | 15000 | 10632553 | Washington | 8/11/15 | 10:30 | 12:00 | 1.5hr x 2 3 hrs. | Amy Kretlow Josh Turanski | Amy.Kretlow@ Wisconsin.gov | 5 |

*1: <100, 2:100-200, 3:200-400, 4:400-600, 5:600-800

STEP 1: Record the sample site, habitat, and land use. If possible, record latitude and longitude (in decimal degrees). If AIS are observed, record species name, area, and density. If possible, collect up to 5 specimens of each AIS and take photos. Include internal and external labels with **species code**, **waterbody name**, **SWIMS station ID or WBIC or lat/long**, **collector's name**, and **date**. If needed, preserve specimens with adequate ethanol and identify ethanol type on label.

| Site* | Latitude | Longitude | Habitat Type† | Land Use‡ | Sub§ | 1 name, live, area, density | 2 name, live, area, density | 3 name, live, area, density | Sample(s) collected (list/NA)? | Photo(s) collected (list/NA)? | No AIS observed | Comments |
|-------|----------|-----------|---------------|-----------|------------|-----------------------------|-----------------------------|-----------------------------|--------------------------------|-------------------------------|-----------------|------------------------------|

Kewaskum Millpond
Kewaskum Creek

Stream order: 4

Parview Dr

HU-AR

* AU: access upstream, AD: access downstream, TU1: target upstream 1, TD1: target downstream 1, IU1: incidental upstream 1, etc.

† Riffle, Run, Pool

‡ Natural, Agriculture, Urban

§ Silt, Sand, Gravel, Clay

|| Area estimates: only one plant (.0001 ac), my living room (12'x16' or .004 ac); a baseball diamond (90' X 90' or 0.2 ac); or a football field (300'x 160' or 1.1acre). If linear use appropriate conversion of miles to acres (# of miles X 3.62 (if only on one side of the stream/road divide by 2)

|| Density ratings: 1 - a few individuals (1-25), 2 - many small, scattered populations (25 - 500), 3 - dense population (> 500)

Step 2: Coordinate Voucher and sample submission and verification with regional DNR staff for all AIS records for the specific region.

- Plants will be compiled and entered into a spreadsheet to be verified and submitted to a herbarium by an in-person appointment. Please indicate which herbarium: Freckmann Herbarium, Wisconsin State Herbarium, Other _____, Date of herbarium meeting _____
- Snails will be compiled with other regional snail specimens and sent to UW-La Crosse. Date sent _____
- Dreissenids will be sent to Science Services. Date sent _____
- Crayfish compiled and sent to Craig Roesler or Scott VanEgeren. Date _____

Step 3: Notify the appropriate DNR AIS Contact and deliver specimen, if collected (see Report Invasive Species below).

Step 4: Enter data into SWIMS. Work with appropriate DNR AIS specialist on data entry, if needed. If a photo is taken, attach it to the SWIMS record.

Step 5: Data was entered into SWIMS on 11/2/15 by Amy Kreitlow

Once data is entered, send scans of data sheets to central office (Maureen.Ferry@Wisconsin.gov and Amanda.Perdsock@Wisconsin.gov).

Step 6: Data entered in SWIMS was proofed on 11/10/15 by Josh Turensky

Report Invasive Species

Contact your local DNR Aquatic Invasive Species Contact and deliver this report form, specimens, and digital photo (if available). Please do this as soon as possible – no later than 4 days after you discover the plant. For more information visit: <http://dnr.wi.gov/topic/Invasives/report.html>.
