

Notice: This application form template was created by the Wisconsin Department of Natural Resources. Application is hereby made to the Wisconsin Department of Natural Resources, Bureau of Watershed Management, for grant assistance consistent with s. 281.66, Wis. Stats., and Chapters NR 151, 154, and 155, Wis. Adm. Code. Collection of this information is authorized under the authority of s. 281.66, Wis. Stats. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records Law [ss. 19.31 - 19.39, Wis. Stats.]. *Unless otherwise noted, all citations refer to Wisconsin Administrative Code.*

Please read the [instructions](#) prior to completion of this form. Complete all sections as applicable. Tab to each section or click in answer spaces.

- GPS DNR Surface Water Data Viewer (<http://dnrmaps.wi.gov/SL/?Viewer=SWDV>)
 Other (specify):

B. Project Summary and Description. Use this space for the project summary and description, not an attachment.

Mention every activity being proposed in Part II; Question 1.

Wisconsin Rapids is looking to complete a water quality master plan update. Previous versions of the City's water quality master plan were geared towards developing an implementation plan for compliance with a city-wide water quality goal (40% TSS reduction) as required by NR151. Development of a TMDL for the Wisconsin River is underway, and is expected to be implemented within the next few years. The City proposes to hire a consultant to revisit the city-wide water quality master plan to determine the existing TSS and TP reduction achieved in each subwatershed and re-rank alternative BMPs identified in the water quality master plan to prioritize them according to their ability to achieve the TSS and TP reduction. Major activities will include the following:

Activity #1 - Project Meetings. A kickoff meeting and project progress meetings are essential for beginning the project with all available information and keeping City and consultant personnel focused on goals and outcomes.

Activity #2 – Revise Water Quality Database. The City's existing model will be revised to update land use mapping and to reconfigure watersheds to allow for better assessment of individual privately-owned BMPs that did not appear in original assessments.

Activity #3 - Existing Swale Infiltration Assessment. Information will be gathered to allow for water quality modeling of existing infiltration swales as BMPs, which did not appear in original assessments.

Activity #4 – Update Citywide Water Quality Model. The existing water quality model will be updated to WinSLAMM version 10.1 so as to take advantage of the most up-to-date BMP evaluation tools. The WinSLAMM model will be used to determine existing TSS and TP loads, removal level of pollutants by existing City practices, and potential additional water quality treatment by previously-recommended (as-yet not constructed) BMPs. All assessments have the goal of preparing the City for meeting future TMDL requirements.

Activity #5 – Re-Prioritize Recommended BMPs. Use the WinSLAMM model and cost estimates of previously-recommended BMPs to re-evaluate the feasibility, cost-effectiveness, and priority rank of alternative BMPs identified in current water quality master plan for effectiveness at achieving TSS and TP load goals.

Activity #6 - Reporting. The report will include maps, figures and text documenting the significant finds of field investigations and the described modeling and BMP cost rankings.

C. Watershed, Waterbody and Pollutants (see Attachment A and <http://dnrmaps.wi.gov/SL/?Viewer=SWDV>).

Note: Planning areas may encompass several square miles and may affect multiple watersheds.

Watershed Name	Watershed Code	12-digit Hydrologic Unit Code (HUC)	% of Project Area	Nearest Waterbody Name
Wisconsin Rapids	CW08	070700030305	1	Wisconsin River
Wisconsin Rapids	CW08	070700030701	21	Cranberry Creek
Wisconsin Rapids	CW08	070700030702	11	Moccasin Creek
Wisconsin Rapids	CW08	070700030704	19	Wisconsin River
Fourmile and Fivemile Creek	CW10	070700030403	28	One Mile Creek
Fourmile and Fivemile Creek	CW10	070700030701	8	Wisconsin River
Fourmile and Fivemile Creek	CW10	070700030704	12	Wisconsin River

Nonpoint Source Pollutant(s) Controlled by the Project

Nutrients Sediment Other, specify:

Part I. Screening Requirements

A. Maps and Photographs

Yes

- An 8.5" x 11" map from the DNR data/map viewers, showing the project area, is attached (link to <http://dnrmaps.wi.gov/SL/?Viewer=SWDV>).
- Aerial photo maps and project area photos are also included.

B. Filters *Note: The applicant must be able to check "Yes" to questions 1 through 8 below to be eligible for a grant. Check "Yes" to question 9, if applicable.*

Yes

- 1. Project is in an area that is urban or will be urban within 20 years (see [Attachment B](#)).
- 2. Project will be completed within 24 months of the start of the grant period.
- 3. Staff and consultants designated to work on this project have adequate training, knowledge, and experience to implement the proposed project.
- 4. Staff or contractual services, in addition to those funded by this grant, will be provided if needed.
- 5. Planning products prepared under this grant will not work at cross-purposes to (are consistent with) the non-agricultural performance standards under ch. NR 151 (see [Attachment D](#)).
- 6. The local DNR District Nonpoint Source Coordinator has been contacted and the project was discussed. See contacts at: <http://dnr.wi.gov/topic/nonpoint/NPScontacts.html>.

Name of the District Nonpoint Source Coordinator Contacted	Date Contacted	Subject of Contact
Erin Hanson	03/12/2015	General grant and application questions (phone call)
Mike Gilbertson	04/07/2015	Application questions (phone call)
Mike Gilbertson	04/08/2015	Ordinance questions (phone call)

- 7. The applicant can declare that **one** of the two statements below is TRUE.
 - a. Statement A: The grant application is for a local governmental unit that has jurisdiction over the project area. (Jurisdiction over the project area means that the governmental unit has control over whether the planning recommendations are carried out.)
 - b. Statement B: The applicant does not have jurisdiction over the project area; however conditions "i" and "ii" or "i" and "iii" are met
 - i. The applicant is required to obtain a permit under subchapter I. of ch. NR 216; **and**
 - ii. In addition, Inter-Governmental Agreements (IGAs) are in place,
 - iii. **or**, will be put in place prior to the commencement of the grant period, to assure urban best management practices included on the grant are installed and maintained (see [Attachment G](#)).
- 8. The applicant can declare that **one** of the two statements below is TRUE.
 - a. Statement A: The applicant is not the University of Wisconsin Board of Regents.
 - b. Statement B: The applicant is the University of Wisconsin Board of Regents **and** the project will develop recommendations for a UW Campus area located in a municipality that meets **both** of the following criteria:
 - i. The municipality is required to obtain a municipal storm water permit under ch. NR 216 **and**
 - ii. The municipality is located either in a priority watershed or lake area identified under s. 281.65, Wis. Stats., or in an area of concern as identified by the International Joint Commission under the Great Lakes Water Quality Agreement.
- 9. This application is a joint application among local units of government, and
 - If yes, the required Inter-Governmental Agreement (maybe a DRAFT) is attached (see [Attachment G](#)).

If the applicant answered "No" to any of the items in 1-8, above, stop here. This project is ineligible.

Part II. Competitive Elements

Question 1. Project Activities and Extent of Pollutant Control

A project can consist of one or more of the following planning activity categories (A through F). For each category below, check the boxes that describe the work products which will be produced under **this** grant. **Do not check boxes based on prior work.**

A. Ordinance Preparation

Develop Update The project is to develop or update one or more of the following ordinances (must be the applying Governmental
New Existing Unit's ordinances), including associated information, education and public participation activities. Check all that apply.

1. Construction erosion control ordinance including all the requirements of s. NR 151.11.
2. Storm water ordinance for new development and re-development including all the requirements of ss. NR 151.12, NR 151.121-128, and NR 151.241-249.
(See NR 151 at: http://docs.legis.wi.gov/code/admin_code/nr/100/151.pdf#page=1.)
3. Low impact development/conservation subdivision ordinances.
4. Other ordinances such as an illicit discharge ordinance, storm water ordinances affecting runoff from developed urban areas (e.g., pet waste management ordinances, nutrient management ordinances), or ordinances that regulate the application of fertilizers to non-municipal properties in accordance with s. NR 151.14.

B. Financing Mechanisms

Develop Update The project will evaluate financing mechanisms for storm water management, including associated information,
New Existing education and public participation activities. Recommendations will be presented to the governing board for approval and DNR will be notified of the governing board's action. Check **one** of the following:

1. The project develops a dedicated revenue source, such as a storm water utility, to implement a storm water program focusing on implementation of performance standards in Subchapter III of ch. NR 151.
OR
2. The project is a general feasibility analysis of alternative funding mechanisms

C. Storm Water Plan for Developed Urban Areas (includes redevelopment)

Develop Update The project is to develop or update a storm water management plan for developed urban areas, including
New Existing redevelopment, which addresses all applicable performance standards under NR 151 including associated information, education and public participation activities.
Check **one** of the following

1. This project will cover the entire geographic area of the governmental unit.
OR
2. This project will cover only part of the geographic area of the governmental unit.

D. Storm Water Plan for New Development

Develop Update The project will develop or update a storm water management plan for new development that addresses all of the
New Existing performance standards under ss. NR 151.12, NR 151.121-128, and NR 151.241-249, including associated information, education and public participation activities. Check **one** of the following:

1. This project will cover the entire geographic area of the governmental unit.
OR
2. This project will cover only part of the geographic area of the governmental unit.

E. Comprehensive Storm Water Information and Education Program

- Check this box if the project will develop and/or implement a comprehensive storm water information and education program.
Note: This category may **not** be checked if any boxes in categories A through D, above, have been checked.
Information and education activities are expected to be included as necessary components of projects under categories A through D.

F. Inter-Municipal and Watershed-based Cooperation (bonus)

- Check this box if this project is being conducted as part of an inter-governmental storm water management strategy for a common water resource. This also includes entering into a Watershed-based Storm Water Management Permit with other municipalities.
Note: If more than one local unit of government is joining in this project application (a "joint application"), then an Inter-Governmental Agreement (IGA) meeting the requirements of Attachment G must be submitted with this application.

Provide a description of the inter-governmental effort that will be used to complete the project.

Question 2. Fiscal Accountability

A. Timeline and Source of Staff

For each applicable milestone listed below, fill in the appropriate data.

Milestone	Target Completion Date (month/year)	Source(s) of Staff
Basic Milestones		
Prepare preliminary scope of services and discuss with DNR NPS Coordinator	04/2015	Municipal Staff and Consultant
Prepare Request for Proposal	08/2015	Municipal Staff and Consultant
Select Consultant	10/2015	Municipal Staff
Finalize Scope of Service and Professional Services Contract	01/2016	Municipal Staff and Consultant
Get DNR approval of Professional Services Contract	01/2016	DNR, Municipal Staff, and Consultant
Hold "kick-off" meeting	02/2016	Municipal Staff and Consultant
Interim meeting with DNR	08/2016	DNR, Municipal Staff, and Consultant
Presentation to Municipal Council	10/2016	Consultant
Submit project and final report to DNR	12/2016	Municipal Staff
Additional Milestones (list below)		
Additional Reporting Year 1	03/2017	Municipal Staff
Additional Reporting Year 2	03/2018	Municipal Staff

B. Adequate Financial Budget

Provide detailed budget information for every proposed project activity in Question 1. and supporting activities for which DNR funding is requested. Please note: the state share may not exceed 70% of eligible costs. The grant amount is capped at \$85,000 for the eligible planning activities.

B.1. Financial Budget Table - Planning Activities

A	B	C
---	---	---

Question 3. Project Evaluation Strategy

Information that will be developed and presented to DNR to evaluate the environmental benefits of completing this project. Check all that apply.

- A. Information that quantifies how project implementation is projected to decrease storm water impacts on state waters will be provided to the DNR. The information may be provided as part of the planning product (e.g., storm water plan, I&E plan) or in the Final Report.
- B. Information that tracks progress in carrying out recommendations of this project will be provided to the Department for one or two years after the project is completed. Specify if it is going to be one or two years that tracking information will be provided and describe how this annual post-project tracking process will work:
 For two years following the completion of the project as part of their annual report under WPDES requirements, the City will report which recommendations were implemented and will report the water quality improvement gained by revising the WinSLAMM model based on actual project plans/asbuilts.

Question 4. Water Quality Needs

The project must be consistent with at least one of the following seven watershed priorities. For each watershed in the project area, identify the category that best identifies the project goals. If more than one category is checked (because the project area contains more than one watershed), estimate the portion of the project area to be assigned to each category.

Note: For border waters where a State of the Basin Report does not exist, another governmental document acceptable to the District NPS Coordinator may be used to identify the water quality need.

	Percent of Project Area (Total should equal 100%)	Surface Water Considerations
<input checked="" type="checkbox"/>	71	<p>A. Clean Water Act section 303(d) List of Impaired Waters Project with water quality goals directly dealing with a water body (lake or stream) on the latest Clean Water Act (CWA) s. 303(d) List of Impaired Waters, where the cause of the impairment is nonpoint source pollution and this project will reduce the type of nonpoint pollutants for which the water is listed (see Attachment A and http://dnrmads.wi.gov/SL/?Viewer=SWDV).</p> <p>Name of Applicable Impaired Water: Wisconsin River</p> <hr/> <p>Name of Pollutant Causing Impairment: PCBs, Mercury</p> <hr/>
<input type="checkbox"/>		<p>B. Outstanding or Exceptional Resource Waters or Other Areas of Special Natural Resource Interest Prevention of degradation due to nonpoint sources of outstanding resource waters (ORW) (per s. NR 102.10) or exceptional resource waters (ERW) (per s. NR 102.11) or other areas of special natural resource interest (ASNRI). To locate ORW/ERW and other ASNRI's see Attachment A and go to DNR's Surface Water Data Viewer Designated Waters Theme at http://dnrmads.wi.gov/SL/Viewer.html?Viewer=SWDV&runWorkflow=DesignatedWaters.</p> <p>Name of Applicable ORW/ERW or ASNRI:</p>

<input type="checkbox"/>		<p>C. Not Fully Supporting Uses or NPS Ranking of High or Medium A water body (lake or stream) identified in a DNR-approved Basin/Watershed Plan as not supporting designated uses due to nonpoint sources, but is not on the section 303(d) List. In newer plans, these waters are categorized as “supporting” (as opposed to “fully supporting”) designated uses; in plans prior to 2010 they were labeled as “partially meeting” designated uses. Or, the project is located in watershed, lake watershed, or other area ranked high or medium on the NPS Rankings List, where the goals of the project are directly associated with the reason for the ranking on the NPS Rankings List.</p>
<input checked="" type="checkbox"/>	29	<p>D. Surface Water Quality Prevention of degradation of surface water quality due to nonpoint sources</p>
		<p>Groundwater Considerations For assistance with this section, please consult the DNR District Drinking Water and Groundwater Specialist at: http://dnr.wi.gov/topic/drinkingWater/documents/CountyContacts.pdf or the County Extension office.</p>
<input type="checkbox"/>		<p>E. Exceeds Groundwater Enforcement Standard Groundwater within the project area where representative information indicates that stormwater pollutants in groundwater exceed the Enforcement Standard (ES).</p>
<input type="checkbox"/>		<p>F. Exceeds Groundwater Preventive Action Limit Groundwater within the project area where representative information indicates that storm water pollutants in groundwater exceed the Preventative Action Limit (PAL).</p>
<input type="checkbox"/>		<p>G. Groundwater Quality (see Attachment F) The project area is within a geological area defined in Attachment F as susceptible to groundwater contamination.</p>
Total:		
100		

Drinking Water Bonus Points (see [Attachment E](#))

- Yes Check this box if the project water quality goals identified above relate to the reduction of nonpoint source contaminants in community or non-community public drinking water supplies. This includes any of the following: Municipal supplies governed by chs. NR 809 and 811; Other-Than-Municipal (OTM) water supplies governed by chs. NR 809 and 811; Non-Transient water supplies governed by chs. NR 809 and 811; Transient water supplies governed by chs. NR 809 and 812.
1. If “Yes,” and you checked boxes E, F, or G, above, then mark a, b, or c, below and move on to question 6. (You will need assistance from your DNR District NPS Coordinator at <http://dnr.wi.gov/topic/nonpoint/NPSContacts.html> or Water Supply Specialist at <http://dnr.wi.gov/topic/drinkingWater/documents/CountyContacts.pdf> to answer.)
- a. Check this box if the project is located: within the wellhead protection area of a municipal well; or within 1,200 feet of a municipal well for which a wellhead protection area is not delineated; or within 1,200 feet of an Other-Than-Municipal (OTM) water supply well; or within 1,200 feet of a Non-Transient water supply well.
- b. Check this box if the project is located within 200 feet of a Transient water supply well.
- c. Check this box if **neither** a nor b applies
2. If “Yes,” and you checked box **A, B, or C or D** above, then place a check mark next to the appropriate drainage area where the project is located. If the project is in more than one drainage area, enter the appropriate percentages in the boxes provided. (See [Attachment E](#) .)

Source Water Drainage Area	Portion of Project in Assessment Area (%)
<input type="checkbox"/> Pike River and Creek	<input type="text"/>

Question 5. Evidence of Local Support

For A. and B., check the applicable situation that exists at the time of application. Submit supporting information and documentation with the application.

A. Government

- 1. The local-share funds for this project's expenses are already included specifically in an **adopted** budget.
 - Evidence of the adopted budget is included with the application submittal.
Describe the document and list date of adoption:
City budget for 2015 includes an \$85,000 outlay from Stormwater Utility for stormwater quality management which includes modeling. See page 100 of the Departmental budgets segment in the document posted at http://www.wirapids.org/egov/documents/1415902287_11291.pdf. Budget was adopted as Resolution #25 (2014) on 11/18/14 by the Common Council.
- 2. The local-share funds for the project expenses are or will be included in a **proposed** budget.
 - Evidence of the proposed budget is included with the application submittal.
Describe the document and list date for adoption;

B. Community Supporting information must be submitted with the application.

- 1. There is local community support from community stakeholders specifically for the project.
 - a. There is local support from citizen groups.
 - b. There is local support from municipal committees or councils representing the applicant.
- 2. There is community support for addressing general water resource needs in the community, even though there may not be evidence of support for this specific project.
 - a. There is general support from citizen groups.
 - b. There is general support from municipal committees or councils representing the applicant.

Question 6. Plans and Regulations

A. Consistency With Resource Management Plans

- Check this box if the proposed project focuses on plans to implement a water quality recommendation from a locally-approved resource management plan. Examples include Smart Growth plans, Legacy Community plans, Water Star plans, local Storm Water Management plans, wellhead protection, lake management, regional water quality plans, Remedial Action plans and other watershed-based nonpoint source control plans.

(This question does not include a TMDL report, TMDL implementation plan, or County Land and Water Resource Management Plan.)

If Yes, summarize the water quality recommendation and describe how it relates to the goals of this proposed project. Cite the title, author and date(s) of publication of the resource management plan. Attach pertinent page(s) or provide URL and page numbers.

B. Supporting Regulations

Check the box for the statement(s) that applies to this project. The project is located within an area which has:

- 1. The applicant (applying governmental unit) has regulations in place to administer and enforce construction erosion controls in the governmental unit that are consistent with the non-agricultural performance standards in s. NR 151.11 Include the web site where the regulation can be found (most direct web page URL) and page number(s).
http://www.wirapids.org/egov/documents/1396275566_90664.pdf

- Or check the box if a copy of the regulation is attached to this application.

- 2. The applicant (applying governmental unit) has regulations in place to administer and enforce post-construction runoff for areas of new development and redevelopment in the governmental unit consistent with the non-agricultural performance standards in s. NR 151.12. Include the web site where the regulation can be found (most direct web page URL) and page number(s).
http://www.wirapids.org/egov/documents/1396278418_30422.pdf

- Or check the box if a copy of the regulation is attached to this application.

Question 7. City of Racine

- Check this box if this is an application from the City of Racine for a project that is necessary for the city to comply with state storm water permitting requirements.

Part III. Eligibility for Multipliers

Completion of this part of the application is optional. However, an applicant can increase the final project score by qualifying for a project multiplier.

Local Implementation Program (select all that are in place as of the application submittal date)

- A. The governmental unit is implementing a pollution prevention information and education program targeted for property owners and other residents.
- B. The governmental unit is tracking storm water permitting activity (construction and post-construction) in the governmental unit and can make summary information available to the DNR upon request.
- N/A
- C. The governmental unit is implementing a nutrient management plan for municipally-owned properties of pervious area where nutrients are applied.

Optional Additional Information

Carefully review the answers to all of the questions above. Is there additional information that will add to the understanding of this project? If so, describe here.

Under Part III Item A, the City of Wisconsin Rapids is an active member of the North Central Wisconsin Stormwater Coalition. Pollution Prevention and Education Program for member communities is one of the functions of this Coalition. The City's specific involvement is detailed in their "Annual Report Under MS4 General Permit No. WI-S050075-2" for 2014, Section V.a. A copy of the annual report is attached to this application.

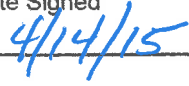

Under Part III Item B, the City of Wisconsin Rapids tracks permitting activity and annually reports in their "Annual Report Under MS4 General Permit No. WI-S050075-2" for 2014, Section VII.e. A copy of the annual report is attached to this application.

Under Part III Item C, the Park and Recreation Supervisor, Mr. Matt Heideman, manages the nutrient application for the City's large open spaces. Mr. Heideman has indicated that phosphorous-free fertilizer is used on Veterans Park, Rapids View Park and the

ballfields at Witter Field twice per year, and at Centralia Center three times per year. Email correspondence is attached to this application.

Applicant Certification

A Responsible Governmental Official (authorized signatory) must sign and date the application form prior to submittal to the DNR. The governmental official with signatory authority must be the person authorized by the Governmental Responsibility Resolution. I certify that, to the best of my knowledge, the information contained in this application and attachments is correct and true.

Signature of Government Official - Authorized Signatory 		Date Signed 
Name (Please Print) Joe Eichsteadt	Title Interim City Engineer	

Check this box if the required, completed Governmental Responsibility Resolution (GRR) (see Attachment H) is attached. Authorized signatory must be approved in the GRR.

Submittal Directions

To be considered for funding, provide the following for each application submitted:

- One hard copy of the completed application form [DNR Form 8700-299A (R 1/15) with original signature in blue ink and all attachments.
- Three additional hard copies of the completed, signed application form and all attachments.
- One electronic copy of the completed application form (this saved application form) in **PDF format only** plus all attachments on CD.

All application materials must be postmarked by midnight **April 15 of the same calendar year**.

Mail to: State of Wisconsin
Runoff Management Section-WT/3
