

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

**NOTICE:** This Final Report is authorized under ss. 281.65 and 281.66., Wis. Stats., and chs. NR 153 and NR 155, Wis. Admin. Code. Personally identified information collected will be used for program administration and may be made available to requesters as required under Wisconsin Open Records Law [ss. 19.31-19.39, Wis. Stats.].

**INSTRUCTIONS:** Your grant agreement requires you to submit a Final Report with your final reimbursement request. This Final Report form must be used in conjunction with the "FINAL REPORT INSTRUCTIONS." The instructions detail how to complete and submit the report to DNR as described in the instructions.

**1. GRANT TYPE.** Check the one that applies.

**NOTE FOR SECTION 2.6 (which follows):**

Section 2.6. includes five (5) columns (A. through E.) for recording data about five (5) discrete site locations. If your grant has more than five (5) discrete project locations, attach additional columns for Section 2.6 as described in the instructions. If your project occurs in more than one 12-digit Hydrologic Unit Code (HUC), use the space in adjacent columns to record other HUC numbers.

| C.4. Identify the Storm Water goals addressed (check all that apply)              |  |
| <input checked="" type="checkbox"/> Reduce TSS                                    | <p><b>Comments:</b></p> <p>Based on the modeling described, the Village of Ashwaubenon is currently achieving a 7.0% TSS reduction, or 92,976 lbs of TSS being removed on an annual basis for the NR151 (2004 based) Analysis. Two alternatives were outlined for the Village to achieve the required 20% reductions. The Village is currently achieving a 8.6% TSS reduction, or 120,363 lbs and a 6.4% TP reduction, or 236.5 lbs on an annual basis. Three alternatives were outlined for the Village to achieve the required percentages outlined for the Village's subwatersheds in the Lower Fox River TMDL. These alternatives were outlined within the SWMP. Public involvement, Capital Cost, Operation &amp; Maintenance Cost, Land Acquisition, and obtaining WDNR permits are a few factors that play a role in determining the Village's ultimate plan.</p> <p>The Village of Ashwaubenon completed the following items under the UNPS&amp;SW Grant:</p> <p>The Village's storm water drainage system is mapped. The drainage system maps, WinSLAMM water quality analysis, cost effectiveness rankings for proposed ponds were included with the Storm Water Management Plan which was submitted to the Wisconsin Department of Natural Resources regional office in Green Bay. The proposed BMP alternatives included preliminary site investigations based on available information.</p> <p>The Village developed dedicated funding sources as part of the UNPS &amp; SW grant, developed stormwater ordinances, completed an inventory of channel erosion in streams. A preliminary stormwater management plan was developed for a proposed pond named Vanderperren Pond.</p> |

**5. Additional Information.** (Space will expand to fit your text.)

During the course of this planning grant, the Village has begun construction of two stormwater quality ponds to improve stormwater quality and to move toward meeting the NR 151 requirement for 20% TSS reduction.

**6. Summary of Project Challenges.** (Space will expand to fit your text.)

The Village previously had a regional water quality pond designed by standards available at the time of design (1999), which no longer meets criteria for stormwater quality in current standards. This as well as other factors due to changes in modeling guidance resulted in a lower percent TSS removal than previously accepted. Currently the Village is working with Wisconsin DNR personnel to move forward with a project to revise the pond so that water quality benefits can be realized.

**7. Grantee Certification.**

Checking here  certifies that, to the best of your knowledge, the information contained in this report is correct.

Name of Authorized Representative (type or print) ↓

Steve Birr

Title of Authorized Representative (type or print) ↓

Village Engineer

Signature of Authorized Representative

*Steve P. Birr*

Date

7/5/16

**8. For Departmental Use Only.**

Regional NPS Coordinator – Please complete the following:

8.A. Check here  if you have received the following from the project sponsor:

- one (1) printed, signed, original Final Report + attachments
- one (1) electronic version of Final Report.

Send the printed, signed original Final Report with attachments + electronic version to the Community Financial Assistance Grants Manager. Community Financial Assistance will forward to Runoff Management Section Grants Coordinator.

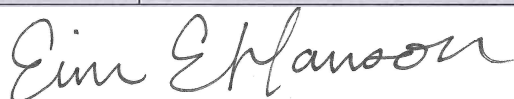

- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

8.B. Comments about this project:

None.

8.C. Type or print Name of Regional NPS Coordinator → Erin E. Hanson

8.D. Signature of Regional NPS Coordinator
